ANNEXATION BILL BEATEN

ARMY DEMONSTRATION ALONG THE BOUNDARY NOT TO BE ABANDONED

Present Plan of President Is to Relieve Detachments But Not to Remove Them

WASHINGTON, March 14.—The troops now concentrating in San Antonio, Tex., are to be kept in that vicinity. So are those centering at San Diego, Cal., and at Galveston, Tex. This statement is made on the highest War Department authority, notwithstanding constant rumors to the contrary.

So far as the navy is concerned, it is declared that the gunboats on the east and west coasts of Mexico and Central America are simply exchanging places. The patrol work of the troops on the Mexican border is arduous and trying, and for this reason the War Department is making plans for relieving those now there after a short time. Then men who are now doing the work are to be relieved at intervals, but there is no present intention on the part of the War Department of increasing the number of the patrol.

Admiral Stoughton, who arrived in Cuba yesterday with his armored cruisers, will begin a series of drills and evolutions in that vicinity. Whether Admiral Stoughton's squadron will be sent to the Texas coast at all will depend on developments.

Warships Ready for Serious Service—on Receipt of Orders

SAN DIEGO, March 14.—Activity aboard the United States warships anchored off San Diego is taken to indicate that the Navy Department expects that the ships and their crews may soon be more seriously engaged than lying at anchor in a peaceful port. The armored cruisers California, South Dakota and Pennsylvania continue busily engaged in preparing their landing forces for duty on shore. Whether this landing will be made on United States soil or that of some foreign country there is as yet no hint, even in official circles.

The warships are under orders to remain in condition to get under way on receipt of orders. Supplies for two or three months' service are being purchased in the local markets and taken aboard the vessels. The major portion of required supplies, however, are being brought from the north on the ships Buffalo and Charley, the latter due here March 21.

READY TO MOVE.

While there is every apparent evidence of readiness for service on the part of the cruisers and their crews, it is the general opinion among the officers of the fleet that no orders to move will be received for some time to come. This opinion is more personal conjecture, however, and is not based on any official advice from Washington or elsewhere.

As far as the orders concerning their readiness can be interpreted they may be called upon to sail at almost any hour. Another fact indicating that Admiral Thomas expects to be called upon to get his fleet under way quickly is that the vessels recently anchored outside the bay of San Diego harbor. Their draft would not permit them to pass over the bar except at high tide, and this might delay their sailing on short notice.

Six Americans Killed With Insurgent Force At Coyote Hacienda

EL PASO, March 14.—Federal troops from Matamoros and Torreon caught a band of rebels at Coyote Hacienda, near Torreon, on Saturday last, according to mail advices, and there was considerable loss on each side. The rebels had just robbed the Hacienda. In a fight at Saucillo Hacienda on Friday 300 rebels and 100 regulars met and six rebels were killed, all Americans, but unidentified.

Galeana, State of Nuevo Leon, to which Governor Reyes fled a year ago, when in a controversy with Diaz, is in rebellion now over certain acts of its officials.

Pain-Wracked Frame Of Acrobat at Rest

NEW YORK, March 14.—Frank Clavensky, a well-known acrobat and vaudeville performer, who fractured his spinal column last Wednesday while performing a trapeze act at an up-town New York theater, died last night in the Harlem Hospital.

Clavensky was a member of an acrobatic trio, and while performing on a high trapeze he missed the hands of one of his partners and crashed to the stage.

Old Frigate Will Sink Under Fire of Big Guns

NEW YORK, March 14.—The fate of the famous old frigate Portsmouth, lying at the Navy Yard here, will be decided within a few days, after the Secretary of the Navy has weighed the report of the department experts who have just completed an inspection of the historic vessel.

She is pronounced unfit for further service as a training ship for naval reserves, she probably will be used for target practice.

Seven Bodies Removed From Big Snow Slide

VIRGINIA, Minn., March 14.—Seven bodies have been recovered in the Great Northern slide and diggers, assisted by a powerful wrecking outfit, are making good progress. It is believed that by tomorrow the last of the bodies will be uncovered.

SHOOTING IS VEILED IN MYSTERY

Employee of the Melrose Dairy Fatally Wounded While at Work

Discharged Workman Sought; Stray Bullet May Have Been Cause

Charles De Haan, a milkman at the Melrose Dairy on East Fourteenth street, between Grand and Loma Vista avenues, Elmhurst, was mysteriously and probably fatally shot this afternoon shortly after the noon hour. The bullet entered the center of the chest, directly below the breast bone, and took a downward course, probably passing through the liver and lodging in the back.

Rudolph Silvey, of 6324 East Fourteenth street, was taken to the Melrose police station by Policemen Kimmel and Detective Emigh shortly after the shooting, as it is supposed by them that a stray bullet from Silvey's rifle struck De Haan.

Silvey and his wife were shooting at a bottle with a 22 rifle at the time De Haan was wounded. It is thought by the police that a bullet glided from the bottle and struck De Haan.

De Haan was washing one of the delivery wagons near the stable when suddenly there came from the direction of the barn a bullet from a rifle, and he was struck in the chest and that moment De Haan clasped his hand over his chest and staggered forward. Mrs. Dirlinger, wife of Daniel Dirlinger, proprietor of the dairy, who was in the house, heard the report of the firearm and rushed into the yard. She asked him what was the matter.

"I am shot," he exclaimed. Mrs. Dirlinger called to neighbors for help and they carried De Haan into the Melrose police. The latter rushed De Haan to the Receiving Hospital, where Dr. H. O. Hamlin and Dr. Rice treated him. Both surgeons pronounced the wound to be of a very serious nature, probably fatal.

Neither De Haan nor Mrs. Dirlinger, who accompanied him to the Receiving Hospital were able to give any reason for the shooting or tell by whom it may have been done. De Haan said that to his knowledge he had no enemies. Mrs. Dirlinger told Captain of Detectives Walter J. Petersen, who went to the hospital and took personal charge of the case, that on last Wednesday her husband had discharged one of his drivers, Gottlieb Mueller, and had run him off the ranch, suggesting that if the police could locate him they might get a clue to the shooting. Acting upon this information Petersen telephoned orders to the Melrose police station for Mueller to be arrested.

De Haan is 26 years of age. He has worked off and on several years for the Melrose Dairy, the last time since October, 1910.

English Press Welcomes Support of Arbitration

Congratulates House of Commons Upon Stand in Line with Taft's Views.

LONDON, March 14.—The afternoon papers welcome with enthusiasm the cordial support of President Taft's known wish for a general Anglo-American arbitration treaty, given in the House of Commons last night by Sir Edward Gray. The foreign secretary referred to President Taft's recent arbitration speech as "bold, courageous and pregnant with consequences," and added that he believed that the British government and Parliament would place the stamp of approval on the sentiments expressed.

Offer \$300,000 for Church Property

Through John Phillips, George D. Gray, R. L. Stephenson, Arthur L. Adams, H. N. Morris, H. K. Jackson and A. W. Kirkland, its board of trustees, the First Presbyterian church of Oakland this forenoon filed in the Superior Court, a petition for permission to sell its property at the corner of Fourteenth and Franklin streets. Attorney Robert M. Fitzgerald and J. L. Carlson, it is represented, have agreed to purchase the property for \$300,000. There is an indebtedness of \$50,000 that the church will have to discharge before it can give a clear title to the holdings.

Rough Riders to Greet Roosevelt

WOLFE MEASURE IS KILLED IN SENATE BY VOTE OF 21-19

Tyrrell and Stetson Score Efforts to Cobble Oakland; Wolfe Moves to Reconsider

SACRAMENTO, March 14.—Senator Wolfe's constitutional amendment for a "Greater San Francisco" was defeated in the Senate today, failing to receive the two-thirds vote necessary to pass it. The vote was 19 to 21. Senator Wolfe having changed his vote from aye to nay, he announced that he would move to reconsider the vote.

This ends San Francisco's attempt to gobble up Oakland and adjacent cities.

The final roll call was as follows:

Ayes—Senators Beban, Bills, Birdsall, Black, Boynton, Bryant, Burnett, Cassidy, Estudillo, Finn, Hare, Hewitt, Holohan, Hurd, Regan, Shanahan, Walker, Welch, Wright—19.

Noes—Senators Avey, Bell, Caminetti, Campbell, Cartwright, Curtin, Cutten, Gates, Hans, Juilliard, Larkins, Lewis, Martinelli, Roseberry, Rush, Sanford, Stetson, Stowbridge, Thompson, Tyrrell, Wolfe—21.

SACRAMENTO, March 1.—Senator Wolfe's Greater San Francisco constitutional amendment S. C. A. 15, occupied the time of the Senate today and all other special orders, including the so-called "short ballot" measures, which would make a number of State officers appointive instead of elective, were put over until tomorrow.

Senator Wolfe spoke briefly, explaining his measure. Senator Tyrrell of Oakland declared the proposed measure would curtail the development of that city, delay and prevent the disposal of bonds issued, but not sold; head off a proposed

issue of \$3,000,000, depreciate property and increase taxes. Senator Thompson of Alameda opposed the plan and was followed by Senator Stetson of Oakland, who read a list of the public bodies there who have taken action against it, and the result of a "straw vote" taken by a newspaper. "We wish to work out our own destiny," said Senator Stetson. "Why don't you do that? You are attempting to set before the people a great city of 750,000 people when you have not it. The policy, but not sold; head off a proposed

White Slave Dealer Is Given 4-Year Sentence

SAN FRANCISCO, March 14.—Luke Orthman, charged by the police with being one of the worst white slave dealers ever arrested in San Francisco, was sentenced to four years in Folsom penitentiary by Superior Judge Dunne this morning. The specific accusation of which Orthman was convicted was the betrayal and subsequent stealing from her father's home of Freda Graser, a sixteen-year-old girl, who was rescued from a resort on Bartlett alley by Detective Purman.

Violence Attends Attempt To Run Express Wagons

NEW YORK, March 14.—Violence and disorder attended the attempt of the Adams Express company to operate its wagons this morning from the company's stable in East Fifty-sixth street. Fifteen wagons were manned by drivers and guards and run out to the depot on Madison avenue. In the fighting that followed the course of the wagons a guard was seriously wounded by being struck by a brick.

Effort to Save Conductor From Death Is in Vain

SAN BERNARDINO, March 14.—Despite the frantic signaling of his brakeman, who tried in vain to have the engineer halt his engine, Conductor Walter R. King of the Salt Lake railroad was killed at Guelph, a small station on the desert. King missed his footing in trying to step between a flat car and the engine, to ride on the pilot, while switching. He was badly mangled by the wheels and died soon after being pulled from beneath the engine. His body was taken to Los Angeles today.

Big Features Planned For the Sunday Tribune

The Sunday TRIBUNE is to be bigger and better than ever. Watch it grow. Watch for the new features. THE TRIBUNE is the only Sunday morning paper published in Oakland.

THE TRIBUNE has two main trunk wires in its editorial room every Saturday night. THE SUNDAY TRIBUNE has the full Hearst service. THE SUNDAY TRIBUNE has the full Publishers' Press service. Two wires that connect direct with the east start at six o'clock p. m. and close at 3 a. m. The complete news of the world comes over these wires.

A special society department will be started in next Sunday's TRIBUNE. It will be more readable than THE TRIBUNE's famous Modder department in Saturday's TRIBUNE. It will be written by one of Oakland's society leaders; a woman who knows who's who in society.

The Knave will be better than ever. Arrangements have been made with three prominent writers in San Francisco to contribute to the Knave making it one of the greatest newspaper features on the coast. The comic supplement will be better than ever. It will be interesting to young and old and will continually have new features.

Scores of special writers will contribute to the SUNDAY TRIBUNE. You cannot afford to miss the Sunday paper for the reason that it will be a most complete and entertaining newspaper.

COUNCIL URGES SECOND ST. AS TERMINAL ON BROADWAY

What Council Did to Traction Applications

Would Keep Cars Off Clay

Declare That Jefferson Should Be Substituted for Other.

Petition is Read From Property Owners Demanding Action by City Fathers.

In the interest of the people of the city, the council of the city of Oakland, at the instance of the Seventh Street Improvement Club, the city council in committee of the whole last night recommended action tending to compel the Oakland Traction Company to run all its cars on Broadway and Washington streets south at least as far as Second street. As a part of a comprehensive plan for the development of transportation facilities for the southern and business section of the city, the committee of the whole recommended that the traction company apply for a right of way south in Jefferson street from San Pablo avenue as a substitute for the Clay street privilege for which application has been made.

The action of the committee of the whole last night should have far-reaching results if the recommendations are adopted by the council. In effect the committee recommended that no further privileges would be given to the traction company until certain concessions and stipulations concerning running of cars south to Second street should be agreed to by the transportation company.

CLAY AS BOULEVARD.

The recommendation of the substitution of Jefferson street for Clay street for the car line to relieve the heavy traffic in Washington street and Broadway was made on the motion of Councilman Truman Bacon. It is considered by the council that Clay street should be preserved for automobiles and wagons, it being the only adequate and paved street in the business district offering such facilities.

It was considered that Jefferson street would serve all the necessities of the car line proposition, and would not prove objectionable as cutting up a boulevard which has attained the status of a boulevard in the eyes of the people. A petition from Clay street property owners favoring the Clay street application was read before the council last night, and the committee of the whole considered that the best interests of the entire city and of the business district would be better served by preserving Clay street intact.

INTRODUCES RESOLUTIONS.

Councilman Bacon introduced the resolution favoring the Clay street application by the committee of the whole of the Seventh Street Improvement Club as recommendations from the committee to the council. He was seconded by Councilman M. L. Cobbleddick, who started the discussion of conditions at present existing. Councilman Everhart said:

"At this time when the Oakland Traction company is applying for several franchises, it is pertinent to take up the matter of the poor service given the southern business section of the city. If any member of this council will move to go to the waterfront or to First or Third and Broadway he will recognize how legitimate a complaint these people have. I have frequently been delayed by the car service on Clay street. I have waited so long that I have missed a train. The telephone avenue cars, and others that run all the way down, take an interminable period of time to get to Clay street, and I have waited back at the time. I think that now is the time to remedy this condition, by insisting upon all the cars running at least to Second street."

COBBLEDDICK PROTESTS.

"The traction company should be called to account for the manner in which they treat their patrons in respect to the South Broadway service," said Councilman Cobbleddick. "Beyond Fourth street one might just as well walk as ride. The cars are invariably tied up to switch back, delaying traffic for several minutes at different times of day and particularly during the busy hours. Something should be done to have the service improved."

Councilman Bacon then explained that resolutions had been prepared, and asked that they be introduced and passed and read from the working committee of the Seventh Street Improvement Club, which is given the credit for many betterments in the lower part of the city, was then read and carried as the sense of the council committee.

RESOLUTION.

"Whereas, The Oakland Traction Company has made application for a franchise to run its cars on Clay street, and also for franchises for other important franchises; and

"Whereas, The city of the city council have, in their recent action on the question of the Seventh street franchise, very laudably established the principle that hereafter franchises over streetsways in established districts of the city shall not be granted without consideration for the best interests of the property owners of such streets, and also of the whole city;

"Whereas, Nearly 300 trains stop at Third and First streets to take on or let off passengers; and

The question of running cars south to Second street or to the waterfront came up last night when the applications for franchises made by the Oakland Traction Company were scheduled for consideration by the railroad committee in special conference with the council committee of the whole. The grants applied for included several lines in different portions of the city.

Action was recommended on the various franchise applications as follows:

Application for franchise from Sixteenth street to Oakland mole from Southern Pacific Company to eliminate "death curve"—recommended to be granted with stipulations as to prospective construction of subway or overhead crossing at extension of Seventh street.

Application of Oakland Traction Company for street railroad franchise on Market street from San Pablo avenue to Fifty-fifth street—recommended with stipulation that resolution passed by council last night that all short line franchises connecting with longer main line grants, should be made coterminous in time with the larger grant should apply, limiting the new franchise to life of San Pablo avenue unexpired term.

OPPOSE HEADWAY PROVISION.

Application of Oakland Traction Company for street railroad franchise along and upon portion of Thirteenth and Market streets—laid over on account of opposition to 20-minute headway provision in application and opposition to new line here when Sixteenth, Fourteenth and Twelfth street lines already gridiron this portion of city.

Application of Oakland Traction Company for street railroad franchise in Clay street from San Pablo avenue to Eighth street—recommended that franchise be given in Jefferson street instead of Clay and that cars run south to Second street instead of making dead line at Eighth street.

Application for street railroad franchise in East Sixteenth street or Foothill Boulevard from Thirteenth-avenue to High street—laid over for further consideration on motion of Councilman L. N. Cobbleddick.

ern section of the Oakland harbor; and

The said harbor work will necessitate the daily travel to this section of hundreds of workmen from all parts of the city; and

"Whereas, The use of said harbor and wharves will, when completed, cause much more daily travel to this section; and

"Whereas, The present street car traffic to the southern section is wholly inadequate to present needs; and

"Whereas, The Oakland Traction Company has tried every remedy to establish a new business dead line at Tenth and Broadway streets by refusing to run many of its cars further south than Tenth street; and

"Whereas, Said company still tries to establish a business dead line at Seventh and Broadway and Seventh and Washington streets by refusing to operate cars south to Second street; and

"Whereas, The granting of the Clay street franchise as proposed would have the result of establishing a new dead line at Eighth street; and

"Whereas, These abuses are to the injury of the hundreds of workmen and passengers who have daily to go below Second street; and

"Whereas, The same abuses are a great detriment to the property values and the development of the business district south of Seventh street; and

\$5000 PER ANNUM.

"Whereas, The Oakland Traction company does not pay us over \$5000 per annum for all the street privileges it enjoys in the city of Oakland; and

"Whereas, The membership of said company have increased nearly \$2,000,000 in the past nine years as a result of these privileges; and

"Whereas, The Seventh Street Improvement club has been organized not for the sake of the city, but also for the good of the whole southern section of our city; and

"Whereas, The membership of said club is made up of property holders from all parts of the southern section of our city;

"Therefore, do we the undersigned members of the working committee of the Seventh Street Improvement club petition and request the members of your honorable body, the council of Oakland City;

"That no more franchises be granted to the Oakland Traction company unless it agrees to run, at least as far south as Second street, all cars that now operate southerly on Broadway and Clay street; and

MISS HELEN ROGERS AND OGDEN MILLS REID MARRY

MRS. OGDEN MILLS REID, formerly Miss Helen Miles Rogers.

RACINE, Wis., March 14.—In Racine College chapel at noon today, Miss Helen Miles Rogers, daughter of Mrs. Benj. Talbot Rogers of this city, and Ogdén Mills Reid of New York, son of Ambassador Whitelaw Reid, were united in marriage. Rev. L. Talbot Rogers, D. D. of Fond du Lac, Wisconsin, brother of the bride, performed the ceremony. Mr. and Mrs. Whitelaw Reid were present. Simplicity marked the affair because of the winter season and no reception followed the ceremony. Miss Mary Eaton and James R. Miller of New York City acted for the bride and groom respectively.

Among the many gifts was a huge sil-

ver piece inscribed "Ogdén Reid, from the men who worked with Mr. Reid on the New York Tribune." The bride and groom left for Chicago on a special train. Mr. and Mrs. Reid will go to Mexico for a six weeks' honeymoon. They will reside in New York.

The bride is a member of one of Wisconsin's oldest families. She is a graduate of Barnard's college and was for some time social secretary to Mrs. Whitelaw Reid.

The groom is a director and secretary of the Tribune Association, publisher of the New York Tribune. He is a graduate of Yale Law School and a member of the New York bar.

"DEATH CURVE" UP IN CITY COUNCIL

Members Go on Record in Favor of Elimination of Menace.

In taking up the consideration of the application of the Southern Pacific Company for a franchise from Sixteenth street depot into the Oakland mode, by which the company hopes to eliminate "death curve," President Ben H. Pendleton stated that as the company is applying for a fifty-year grant, it would be proper for the councilmen who blocked the Seventh street grant on that ground to express themselves and place themselves on record with regard to this particular line before the council took up the details of the matter. He said that he thought this should be a necessary preliminary.

Councilman Harold Everhart said: "This is only a short strip for the elimination of a dangerous curve. It should be continuous in its life with the grant of the Peninsula railroad franchise, and I am willing to vote for it under these conditions. It could be made to expire at the same time, which would make the grant for about forty-nine years."

Councilman L. N. Cobbleback said: "I voted against the Peninsula franchise, as you will remember, but as this is for the safety of the people of Oakland I shall vote in favor of it."

Councilman R. C. Vose said: "I expressed myself as favoring this plan last meeting night. I think the matter of the extension of Seventh street should be looked into and the matter of a subway before it is finally granted."

Chairman of the Railroad Committee, A. P. Stiefvater expressed his regret that Councilman A. H. Elliot, the fourth member of the insurgents, was again absent from council meeting.

The franchise was recommended, with stipulations covering the grade crossing proposition and Seventh street extension. It will be considered at the next meeting.

MASS MEETING IS FULLY ENDORSED

Prominent Educators to Take Part in the Meeting of Protest.

Endorsing the mass meeting which will be held tomorrow night in the Synagogue of the First Hebrew Congregation at Twelfth and Castro streets, letters and telegrams have been received by Rabbi M. Friedlander today from New York and other large eastern cities where a movement has also been inaugurated for the emancipation of the Russian Jew from the bondage to which the people have been subjected and from the persecution which has been inflicted unceasingly during the last century. Men identified with educational institutions on both sides of the bay have lent their support to the meeting called for tomorrow night and the addresses to be heard will deal with the question from three aspects, religious, educational and legal.

Opening remarks will be made by Rabbi Friedlander and the speakers of the evening will be Benjamin Ide Wheeler, Rev. Frank L. Goodspeed and William H. Davis.

From the number of inquiries that have come to me, it is certain that there will be a full attendance," said Rabbi Friedlander this morning, "and the call for the meeting has aroused unusual interest in a matter which has been permitted to pass seemingly unnoticed in this country. The oppression of the Jew in Russia has recently attracted the attention of thinking men in this country to considerable extent and that eventually there will be a demand made for the abolition of the system seems most probable."

That the treaty with Russia is being violated as regards the passports of American Jews has been stated before audiences in the East and that discrimination towards the race as to privileges of settlement is shown to all within the empire, has further been stated. "The United States should be bound to break off its relations for the reason that it has been a one-sided agreement," said Louis Marshall in New York recently.

The question will be thoroughly discussed from every point of view at the meeting of tomorrow night, when the

HERE IS BUNCH OF HARD LUCK

Is Out of Work, an Actor, Is Broke, and Seven Feet Tall.

NEW YORK, March 14.—Julius MacDonald, an actor, and, to complete the phrase, out of work, stood seven feet tall in his stocking feet on the corner of Sixty-eighth street and Third avenue, a few nights ago and paid a certain kind of court to female passersby. They told Policeman Fahy that MacDonald had pelted them with snowballs. The policeman discovered that the missiles were stage snowballs, made of paper. Fahy took him to the East Sixty-seventh street station.

In the back room of the station house the thespian challenged Fahy to a contest at checkers, and, history records, the policeman was defeated.

On examination the lieutenant opined that MacDonald mentally was not all that should be, so he ordered him removed to Bellevue Hospital.

MacDonald was too long by far to fit nicely into the ambulance. He stretched himself on the floor, his shoeless feet thrust out of the back of the vehicle.

PATH OF LOVE WAS ROCKY ONE

Pretty Rose: Johns Would Go Back to Husband Who Divorced Her.

SAN FRANCISCO, March 14.—Beguiled by the smooth words of a smartly dressed youth who had appealed to her vanity and tempted her with glowing tales of wealth, Rose Johns fled from her husband, Peter, a rancher on the San Bruno road, on September 6 in company with Harry Weiss. On September 27 her husband obtained a decree of divorce, and the first chapter of the story was concluded.

This morning a pathetic letter was received from Immigration Inspector Harry Weiss of Seattle, asking the county clerk whether a divorce had been granted, and saying that his namesake, Harry Weiss, was being tried as a white slave dealer with pretty little sentimental Rose Johns as the complaining witness. He said the young woman wanted to be forgiven by her husband and to return home, if he would take her. The authorities will communicate with him prior to writing her.

LIFE INSURANCE COMPANIES

They Are Closely Observing Public Health Conditions.

An examining physician for one of the prominent Life Insurance Companies, in an interview on the subject, made the astonishing statement that the reason why so many applicants for insurance are rejected is because kidney trouble is so common to the American people, and the large majority of applicants do not even suspect that they have the disease.

He states that judging from his own experience and reports from druggists who are constantly in direct touch with the public, there is one preparation that has probably been more successful in relieving and curing these diseases than any remedy known. The mild and healing influence of Dr. Kilmer's Swamp-Root is soon realized. It stands the highest for its remarkable record of cures.

We find that Swamp-Root is strictly an herbal compound and we would advise our readers who feel in need of such a remedy to give it a trial. It is on sale at all drug stores in bottles of two sizes—fifty cents and one dollar.

However, if you wish first to test the preparation, the manufacturers will gladly forward you a sample bottle by mail, absolutely free. Address Dr. Kilmer & Co., Binghamton, N. Y., and mention this paper.

MONEY RAISED TO BUY HORSES

Town of Hayward Has Splendid Record for Small Loss By Fire.

HAYWARD, March 14.—With the support of the business men and residents of Hayward, more than \$600 was raised within a week for the purpose of purchasing two fire horses to take the place of the two that died within a day of each other last week. The reports for the past year show that only \$210 loss was suffered by the residents by fire, and considering the fact that the company is a volunteer one, this report speaks well for the protection given.

CHURCHES HOLD UNION MEETING

Representatives of Bay Association Gather in San Lorenzo.

SAN LORENZO, March 14.—The San Lorenzo Union church was the scene of a large meeting of the ministers of the Bay Association of Congregational churches, when plans were discussed and the reports of the past year were received. The meeting was opened by devotional services, led by Rev. Guy D. Yeakum of the Park Congregational church of Berkeley. The morning theme was "Missions in the Sunday School," presented by Mrs. Alice E. Heman. "Religious Education" was the subject for the afternoon and was discussed as follows: "Home," Mrs. Miles B. Fisher; "Church," H. S. Tattle; "Public School," Rev. L. L. Wirt. An open parliament concluded the program. Luncheon was served by the members of the Ladies' Aid Society.

PROPOSES SOLUTION OF GARBAGE PROBLEM

EDITOR TRIBUNE: For nearly four years I have been at work upon plans for securing Brook's Island, or Sheep Island, for the purpose of erecting an incinerator, or garbage reduction plant, of sufficient capacity to destroy the garbage of San Francisco, Oakland, Alameda and Berkeley. This property can be purchased at a very reasonable figure. It consists of about 58 acres of land and surrounded by water of a depth which will float barges of almost any carrying capacity.

My plans call for a reduction works along with it known as the retort system, and I will be in a position to make the above named cities the best offer and solution of the much thrashed out garbage question ever offered yet. Brook's Island is far enough away from the mainland, and from the city, as to remove and reduce the question of odor to the minimum. In fact, the retort system does away with odors almost entirely.

It has just come to my notice that for certain political reasons, and for whom I have mentioned my plans may attempt to make use of this method and my suggestions to promote the political ambitions of certain persons, so I send to THE TRIBUNE an outline of my plans, but not the details in any manner. Yours for a permanent solution of the garbage questions.

CORONER'S JURY RENDERS VERDICT

Finds That Freeland Swallowed Strychnine With Suicidal Intent.

FRUITVALE, March 14.—That strychnine, self-administered with suicidal intent, caused the death of Samuel J. Freeland, of 4218 Farlington street, Alameda, was the conclusion reached in the third inquest held by the coroner's jury. For lack of any convincing evidence and for fear that murder might have been committed, it was necessary for the inquest to be continued until a full report could be made by A. A. Cunningham, the expert chemist, and Captain of Detectives Walter J. Petersen. The theory that murder might be the cause of the man's death was founded on the fact that the deadly poison was found in the sugar bowl from which he had taken a quantity of sugar just before his death.

In the evidence, brought before the jury last night by young O'Leary, the boy who was reported to have heard the dying statement of the man, it was found that he had threatened to do away with himself several times. Mrs. Freeland testified that many times her husband had threatened to kill her and then himself if she ever made an attempt to secure a divorce from him. So frightened was she at these threats that she made her way from her home and went to live with some neighbors and it was here that she first noticed that Freeland had killed himself.

FRUITVALE N. D. G. W. MAKE READY FOR BALL

FRUITVALE, March 14.—Extensive preparations are being made by the members of the Fruitvale Parlor, No. 177, Native Daughters of the Golden Rule, for their grand ball to be held in the Eagles' Hall on March 17. St. Patrick's Day celebration, the musical numbers will be taken from the old Irish folk songs and melodies. The hall will be decorated in greens and shamrocks. The grand march will be led by president Mabel Zimmerman and chairman of the committee, Frances Jackson. Gertrude Rossi, May Barthold, Pauline Walker and Anna Tishman are the members of the committee in charge of the arrangements.

KNIGHTS OF GRIP WILL WILL BE GIVEN BARBEQUE

SAN LORENZO, March 14.—The delegates to the annual convention of the National Traveling Men's Association of America, which will meet in May in San Francisco, will be entertained on March 14 at a barbeque to be given by Herman Cebulac on his ranch near here. The affair promises to be the largest that has ever been held in this county and the list of speakers will include some of the most prominent men around the bay. The traveling men will be brought here in 150 automobiles which have been already contracted for.

SAN LEANDRO PLANS ADVERTISING CAMPAIGN

SAN LEANDRO, March 14.—Preparatory steps were taken last night by the members of the San Leandro chamber of commerce to start an advertising campaign for the benefit of the entire town. Many plans were given an airing but the officers decided to put the matter over until the next meeting as Monday night when a committee will be appointed and permanent plans laid.

The State University Threatened.

The State has been put upon notice that the scheme to establish another State University in the southern counties will be pushed at the next session of the Legislature. Defeat of the Throop bill has caused the Southern California university promoters to come out in the open and state their intentions unequivocally.

Senator Gates, the author of the Throop bill, says "the demand of the south for another university will now be stronger than ever." He said the State University had made a mistake in defeating the Throop bill. By ascribing the defeat of the Throop bill to the State University authorities Senator Gates gives testimony of hostility to that institution. The "demand" for another university is to be pushed as a measure of vengeance against the State University at Berkeley.

What Senator Gates calls "the south" is a group of seven counties in the extreme southern end of the State. It is the section that has been demanding secession that Los Angeles might be made the capital of a new State. That section regards the region north of Tehachapi as foreign territory and the State University as a foreign institution. It has claimed all the productions of the entire State, and has persistently maligned all other sections of California. Its inhabitants have strenuously insisted on either running the State or dividing it. They have assailed each successive Legislature with a fresh set of "demands" and a fresh array of threats.

Now, there is no feeling of hostility in this section of California toward the people of the southern counties. Nobody up here feels aggrieved at the growth and prosperity of the southern end of the State. We rejoice in their prosperity and commend their enterprise. But we do object to their grabbing propensities, their knocking habit and their fretful threats to secede every time their demands are not complied with. We would like them to be Californians and not an eastern colony in this State. We would like to join hands with them in neighborly friendship to build up all parts of this great State and make California the most prosperous commonwealth in the Union. But we cannot consent to duplicate all the State institutions for their benefit, and we feel moved by the highest considerations of public policy to resist the attack on the State University.

It is not because the State University is located at Berkeley that this attack should be repelled, but to prevent the impairment of the university's usefulness, to serve the true interests of higher education, and ward off unnecessary taxation. Having been located at Berkeley the State University will remain there. It cannot be carted across the Tehachapi divide to please the people of the southern counties and another university cannot be founded to draw away the financial support required by Berkeley and increase the feeling of separateness our southern neighbors have so sedulously cultivated.

Instruction is needed in the editorial rooms of the Los Angeles Herald. That journal says "Michigan supports a State University, an Agricultural College and a School of Mines." The agricultural college and the school of mines are departments of the University of Michigan, though located in different places. The school of technology at Atlanta, to which the Herald alludes, is one of the departments of the Georgia State University. The agricultural college at Dahlenburg is another. The law, classical and philosophical departments of the University of Alabama are located at Tuscaloosa, but the medical school is at Mobile and the school for technical training is at Auburn. The state farm and dairy school at Davisville are a part of the University of California. So is the Wilmerding School in San Francisco. The University of Virginia is not a free school and is not a State institution in the sense that the University of California is. It receives an annual subvention of \$50,000 from the State, but in reality it is a private institution; the State does not own it.

The Los Angeles Express wants the fee system abolished, root and branch. It would be a good thing if it could be done away with, but to get rid of it will impose an additional burden on the taxpayers. For instance, the fees collected by the County Clerk and the County Recorder not only pay the expenses of their respective offices, but leave a balance which goes into the general fund to meet other expenses of government. Under the fee system the Sheriff's office is nearly self-supporting. However, the Los Angeles paper discusses the question apparently on the theory that the officials who collect the fees are the beneficiaries thereof. That is not true of county offices though it is of some township offices. Fees collected by county officers are paid into the public treasury.

Perhaps it may be a trifle impertinent, but nevertheless we feel constrained to remark that the Panama-Pacific Exposition is not going to be built and made a success on banquets. The glad hand feeds are becoming somewhat stale and monotonous. Throwing bouquets is all very well in its way, but equipping a great international exposition is a strenuous job in which frapped oysters and post prandial oratory cut little figure. In the exposition matter San Francisco is custodian of the Great West's reputation for vigor, enterprise and originality, and it is the wish of every Californian that she should eclipse all past performances.

It appears that the advocates of the "recall" are very much opposed to letting Joe Bailey recall his resignation. For our part we think he is entirely worthy to sit in the Senate with Lorimer.

The Proposed Desecration of Lake Tahoe.

In a lengthy defense of the scheme to divert the waters of Lake Tahoe by tunnel from their natural outlet, the Truckee river, the Sacramento Union says "the lake is practically the private property of one of the most grasping corporations in the country." "Practically" is a term thrown into a sweeping assertion that is wholly untrue. Because the lake is partly in Nevada is no reason why the Truckee river, a California stream, should be ruined and the value of the property along it destroyed, nor why the beauties of Lake Tahoe should be marred.

The diverting scheme is not justified because some one has wrongly asserted that it originated with former Secretary Ballinger. It is not given any better complexion because Director Newell of the United States Reclamation Service recommended it and now defends it.

The fact is that the scheme was originated by capitalists who would build a soap factory in the precincts of heaven if they were permitted to do so and could make money by it. Director Newell favored it because it provided a way to cover up the blunders of the engineers of the Reclamation Service made when the Truckee-Carson valley irrigation project was planned and carried out. It has been proved that the regular flow of the Truckee is insufficient to furnish the amount of water required to irrigate the lands included in the estimates. Tapping the lake at a level lower than the Truckee outlet would supply the deficiency—in part, at least—but it would dry up the Truckee and lower the level of the lake, to the damage of the lake itself and to the injury of every person owning property around it. Moreover, marring the beauty of the lake would inflict

NOT SAYING A WORD

a general injury on the whole State of California because Tahoe would cease to be the popular resort it is now.

Director Newell may be willing to ruin one of the greatest natural beauties on this continent to get water for his irrigation project, but the people of California are not so minded. We except, of course, the thrifty gentlemen who figured out millions for themselves by the proposed diversion. The Sacramento Union says the scheme is not dead yet. It may have as many lives as a cat, but it will be killed as often as is necessary to preserve Lake Tahoe from desecration.

"General" Simon Berthold's threat to shoot the United States army if it dared to cross the Mexican frontier appears to have been effective. The United States army has not crossed the frontier. Doubtless it appreciated the ruthless determination of "General" Berthold. That shows how great and formidable a change of residence sometimes makes a man. In this country Berthold would have been vagged without resistance by a rural constable. In Mexico Berthold is a general and makes the whole United States keep off the grass.

Senator Bailey's friends in the Texas Legislature were forced to suppress a resolution commending his colleague, Senator Culberson, for voting to oust Lorimer. Senator Crane's friends in the Massachusetts Legislature were forced to do the same thing with a resolution commending Senator Lodge for his vote against Lorimer. Praising Lodge in this connection would have been tantamount to condemning Crane. Crane and Lodge are personal friends, but Bailey and Culberson do not speak as they pass by.

The Des Moines Capital is consumed with a great fear that the American cities along the northern border will quit buying food stuffs from the Iowa farmers should Congress approve the reciprocity agreement with Canada. Iowa foodstuffs are now being shipped all over the world, but Colonel Life Young thinks they cannot compete with the products of Canada in the home market. Colonel Young wants to protect the home market, incidentally to cinch the consumer.

Senator Bailey resigned to spite his enemies. They rejoiced and he pulled back his resignation. Then he did spite them. They are sorry now that they let out a yell of joy too soon. Mr. Bryan is among those who would like to see Bailey back on the farm. Bryan says Bailey is not a Democrat and Bailey is quite sure Bryan is not one. Others, however, think both are Democrats because both are chronic kickers.

It does not appear that the withdrawal of American warships from Mexican coasts will help the Mexican government to suppress the insurrection.

It should be called the "boss board of control bill," for it is a patronage grab in the interests of bossism.

THE KIND OF CHURCH THIS DAY DEMANDS

By REV. J. R. PERKINS,
Pastor of First Christian Church,
Alameda.

This day demands a united church. The first arguments for it are to be derived from the teaching of the church's founder. Jesus prayed, "That they all may be one, that they all may be one in us, that the world may believe." Even the expert casuist cannot explain away the obvious meaning. These words stand as a lasting reproach to a divided church. And yet, in spite of this we hear extenuating pleas for division. The church seems to have little regard for the wishes of Jesus. We might as well say that He is mistaken, antiquated and not far-seeing.

PROTESTANT DANGER IS IN DIVISIONS.

1. But we are face to face with the fact of the wisdom of his words and wish, for the gravest danger to all Protestantism lies in its divisions. So, if we will not accept the teaching of Jesus on this subject, we are forced to confess in these days that there are forces in play which compel union.

2. It is to be expected that some will deny this. It is being denied by both ministers and laymen whose devotion to dogma is greater than their fidelity to great principles. Yes, even in this day of advanced thinking, in this church crisis, do we behold the pitiable spectacle of a few pleading for denominationalism.

3. But close akin to these is that party, or sect, which refuses all overtures for union until its own little creed is accepted as a catholicon for all the ills of the church. These are greater foes to Christian union than those who plead for the present divided state of the church. These are the despair of all open-minded churchmen. To be a dogmatist, a sectarian in this critical hour is worse than being an infidel.

CHRIST MAY BE LOST IN THEOLOGICAL FOG.

4. Frank words are needed. There is another danger still; it is the danger that Christ will be lost to the people in all this theological fog. Knowing not which way to turn, there are scores who have turned away from the church itself, and in the confusion of factions and creeds many have turned away from religion. Better no Christ than a Christ of caricature; better no religion than a perverted one of forms and dogmas and sacraments that is at the same time oblivious of the deep-seated needs of men, so they affirm.

5. Then is Protestantism a failure? This question is one of quick heat and resentment whenever the criticism is passed upon the state of things in the church. But the question is foolish. All thinking men, irrespective of creed, concede the value of the contribution that Protestantism has made to the race. It is interwoven with the history of democracy itself. It has its victories in the life of the mightiest civilizations the world has witnessed.

ENOUGH WAR WITHOUT CREED STRIFE.

6. But the Protestant church has reached a point where it can no longer be the great force that it was. It is divided. Our social order has become too complex to admit of a divisive religion. There is enough war in society without the additional strife contending creeds bring into the field. There is no problem vexing the social order that a united Christianity could not solve. There is no

HEALTH AND HABIT NATURE'S BEST GIFTS

By ELBERT HUBBARD

WRITTEN SPECIALLY FOR THE TRIBUNE.

If you have health you probably will be happy, and if you have health and happiness you will have all the wealth you need, even if not all you want.

Health is the most natural thing in the world. It is natural to be healthy, because we are a part of nature—we are nature.

Nature is trying hard to keep us well, because she needs us in her business.

Nature needs man so he will be useful to other men.

The rewards of life are for service. And the penalties of life are for selfishness. Human service is the highest form of self-interest for the person who serves.

We preserve our sanity only as we forget self in service. To center on one's self and forget our relationship to society is to summon misery and misery means disease.

Unhappiness is an irritant. It affects the heartbeats or circulation first; then the digestion and the person is ripe for two hundred and nineteen diseases, and six hundred and forty-two complications.

Nothing you can take out of a bottle or that you can rub on will remove the cause of misery.

"Medicine in only palliative," says Dr. Weir Mitchell, "for back of disease lies the cause and this cause no drug can reach."

"I've got a cold in my head," said the man to the wise doctor. And the doctor replied, "Doubtless, for that is the only place where the microbe abides."

People who dread disease and fear disease have disease. The receipt for good health is this: Forget it.

What we call diseases are merely symptoms of mental conditions. Our bodies are automatic, and thinking about your digestion does not aid you. Rather it hinders, since the process of thinking, especially anxious thinking, robs the stomach of its blood and transfers it to the head.

If you are worried enough, digestion will stop absolutely. The moral is obvious: Don't worry.

"This horse is all right, unless he gets scared," said a horseback rider to me the other day. And I answered: "So am I."

In public speaking I have often noticed that when I am anxious to make a big speech I grow fearful about my voice, and begin to distrust my memory. The result is that I have to push that speech ahead of me for the whole blessed hour and a half, and am conscious of my feet and aware of my hands all the time. That is to say, it was an effort and not a pleasure for either the speaker or the audience. For a speaker supplies the mood for the audience. If the speaker is happy the audience is also. And as before hinted, we are only happy when we forget ourselves and do not know whether we are happy or not.

Those rare times when I make a big impression upon my auditors are when I go upon the stage with a certain amount of indifference, simply taking care not to have over-eaten. Then I start in slowly, and soon the thoughts are coming along as fast as I can use them. The air is full of reasons, and all I have to do is to reach up and pick the ones I want. With good health it is the same—just a few plain rules and the whole matter is automatic and self-lubricating. Health is a habit. We are ruled by habit.

There are three habits which, with but one condition added, will give you everything in the world worth having, and beyond which the imagination of man cannot conjure forth a single addition or improvement. These habits are:

THE WORK HABIT, THE HEALTH HABIT, THE ORPHAN HABIT.

Elbert Hubbard

20 YEARS AGO IN OAKLAND

The reputation of the glorious climate of the city of Oakland is such that the acts of the present winter, in which there appears to have been a sort of conspiracy of the elements to frighten the state into a cold sweat with the threat of a dry winter, which then, with their proverbial fickleness, chopped around and gave us more than we wanted.

The enthusiasts of the American party met last week in the office of J. L. Davis on Washington street, to consider matters from a post-election point of view. It was decided to hold meetings every two weeks and C. G. Reed and S. A. Mitchell were appointed a committee to look after the matter. The fact is, so acute have become the questions in modern life that the church is being forced to unite. In proof of this, in rural communities we find the sect spirit most alive. Great social crises are not upon people thus situated, and there is usually little demand for united action. But with the coming of the mighty cities, there have come too deep-seated for any one denomination to uproot, and the church has literally been forced towards Christian union. Here at last do we find a meeting ground, not only for a diversity of Protestantism, but for the Catholic church as well, and priest and preacher now exchange courtesies where they once exchanged blows.

GOOD RESULTS OF ENFORCED UNION.

1. Out of this enforced union is coming many happy surprises. We have met, and, lo! each has found the other human—companionable. The time is not far distant when we shall turn a quarrelsome dogmatist out of church quicker than one whose weakness is vice. This is the most happy augury! Religion ought to unite us; hitherto it has kept us apart.

2. George Mosbacher, with Kahn Brothers for the past 12 years, is about to open a store at 1109 Washington street in the Crellin block, engaging in the cloak and ladies' underwear business. Carmen Precilio, the mother of Police Officer Foley, died at noon today at the family residence, 1057 Alvarado street. She was 63 years of age, a native of Spain, and had resided 33 years in this city.

3. W. H. Mills, who is at the head of the land department of the Southern Pacific, was in Alameda today looking for a home. If he finds a suitable place he will move here with his family.

4. James Grant died Saturday at 1125 Third avenue, East Oakland, at the age of 78 years. He was extensively known in the East. In 1833 he went from South Carolina to Chicago and practiced law, later on moving to Davenport, Iowa. He was founder of the Grant Smelting Works in Denver, Leadville and Omaha. He has made a number of trips to California to visit his nephew.

OAKLAND TO SEEK DISMISSAL OF WATER SUITS

Federal Court Decision Said to
Have Direct Bearing on
Local Case.

Dismissal of the water suits against the city of Oakland, now pending before the federal courts, will be asked by City Attorney Ben F. Woolner and the corps of special water litigation attorneys for the city, according to a communication filed with the city council last night by the city's legal counsel. This action will be taken on the basis of the Judge Norrow Seattle decision, handed down from the United States Circuit Court of Appeals, in which it is declared that the federal courts have not jurisdiction in cases of this kind until the Supreme Court of the State has been called upon and has failed to give adequate remedy to the plaintiff.

The water rate cases involve over \$500,000 alleged by the city to have been collected in excess of the just rates fixed by the city council. The litigation between the water company and the city has cost over \$400,000 and is costing close to \$50,000 a year to the city.

Should the cases be dismissed in the United States Circuit Court where they are pending, they would not be taken up again. It is thought, as the statute of limitations will have run against the company.

The Seattle decision holds that since the wording of the Fourteenth Amendment to the Federal Constitution is included in the State Constitution, the state courts offer adequate remedy for all alleged violations of its terms. The Fourteenth Amendment provides that there shall be no deprivation of life, liberty or property without due process of law.

The case was decided on an appeal from Seattle to the Federal Courts taken in the case of the Seattle Electric company vs. Seattle, Renton and Southern Railway company. The hearing of the case on the Oakland situation is set for by the city attorney as follows: "Inasmuch as the constitution of the State of Washington contains a provision that no person shall be deprived of liberty or property without due process of law, the same as does the constitution of the United States, it will not be judicially recognized by the federal courts that a municipal ordinance violative of such right (assuming it to be such) will be finally upheld by the State through its own courts, including its court of last resort, until the State court of last resort shall have acted—sustained such

DIX DISCUSSES THE DEADLOCK

Murphy and Gaynor Confer
With Governor on Senatorial Situation.

ALBANY, N. Y., March 14.—Seated around the breakfast table at the executive mansion this morning, Governor Dix, Mayor Gaynor of New York and Chas. F. Murphy, the Tammany leader, discussed the senatorial deadlock.

The conference, arranged by Dix, was to have been held last night, but the failure of Murphy to reach Albany caused a postponement. Norman E. Mack, chairman of the Democratic national committee, was invited but was unable to attend.

The 48th ballot for United States Senator showed no change today in the deadlock.

CRITICIZES DELAY IN PAYING DEBT

Everhart and Wolcott Take
Council to Task for Unavoidable Action.

Unavoidable delay in making the payment authorized by the city council on the Mosswood Park property was the subject of criticism on the part of Councilman Harold Everhart and H. E. Wolcott of the Mosswood Improvement Club. It was explained by City Auditor George E. Gross that there had been difficulty in obtaining the services of a trustee to serve in the negotiations with the bank, and that as a result of the delay interest had accrued on the \$20,000 payment. The ordinance, he said, had not provided for this, and he had refused to O. K. the demand including extra amount, and had asked that a new ordinance be drawn.

The matter was referred to the city attorney to draft a new ordinance, to be acted upon at the next meeting.

Councilman Everhart severely criticized the methods which had resulted in the delay and the extra payment. Councilman A. P. Stauffer took issue with Councilman Everhart, declaring the delay unavoidable.

"If I were running for office," he concluded, "this might be a worthy course of complaint."

"You are out of order," interrupted President B. H. Pendleton. "We will pass on to the next order of business."

WOMEN SHOULD USE THIS TO CLEAR THE COMPLEXION AND MAKE SKIN VELVETY

Here Is a Simple Recipe for a Massage Cream You Can Easily Prepare at Home.

No woman need suffer the humiliation of an unsightly complexion if she massages the skin nightly with plain cerol cream. This can be prepared at home at small cost if you get 2 ounces of cerol at the drug store and dissolve in a scant pint of boiling water and stir until smooth.

Using this dainty and delightful massage cream quickly rids pores of blackheads, overcomes the oily, shiny condition and makes the skin soft and velvety, giving it a natural, healthy tone which powder and rouge cannot successfully imitate.

THIS SHAMPOO BEST FOR HOME USE

"Soaps and most ready-prepared shampoos are ruinous to the hair," writes Mae Martyn in the New York Herald, "as they contain alkali which is responsible for scalp troubles and dull, scanty, falling, brittle hair—often times mistakenly attributed to wearing false hair."

"For restoring the natural gloss and fluffiness to dull, stringy, scant hair there is nothing to compare with a shampoo made by dissolving a teaspoonful of canthox in a cup of hot water. It makes a creamy, cleansing lather that removes every particle of dirt, dandruff and excess oil from the scalp and stops itching. It rinses off easily and dries in just a few minutes."

"This peculiar shampoo gives to the hair a most pleasing richness and fluffiness, and will have the commendation of every woman troubled with scanty, short, brittle or faded hair who uses it."

MAIL CARRIERS WILL RIDE FREE

Council Arranges for Transportation of Grey Clad Employees on Trains.

Joseph F. Henney, representing the letter carriers of Oakland, appeared before the council last night asking that in future, franchisees granted the railroad's provide for free transportation of men so employed during the time that they are in uniform.

"There has been some misconception of the ordinance existing at the time on the part of the railroad companies," he said, "and mail carriers are not allowed to ride free unless they have their bags with them. We would ask that the ordinance be so amended as to allow them free rides while they are in uniform, with or without bags, for the reason that they are always on duty when they are in uniform, and subject to regulation and discipline."

The matter was arranged in a satisfactory manner, it being shown that the Southern Pacific had so agreed in its Seventh street grant, and that in future it should be included in all such franchises.

SLAYS TWO KILLED IN AND ENDS ROW OVER LIFE WOMAN

Man Who Tried to Prevent
Tragedy and Woman Are
Killed
Turret Captain of Cruiser Com-
mits Suicide After Double
Murder

SAN FRANCISCO, March 14.—Francis because his efforts to take his sweetheart from the night life on the Barbary Coast had proved unavailing, maddened with jealousy because of her fancied encouragement of other men, and as the culmination of a series of quarrels between the couple, shot Mortyn, known as R. E. Martson, chief turret captain on the U. S. cruiser California, shot and killed Bessie Cook, 23 years old, and Hugo Randall, night clerk of the St. Louis Hotel, shortly after 2 o'clock this morning, afterwards committing suicide.

Mortyn is believed to be the wayward son of a millionaire of Washington, D. C., who came to the navy by his father in an endeavor to find comes from relatives of the dead girl, who declared that he was in receipt of a large allowance from which he purchased the diamonds and presents which he lavished upon his sweetheart.

The triple tragedy took place so quickly that although many occupants of the house were up and about, there was no chance to prevent the crime, and Randall himself paid with his life for attempting to interfere between Mortyn and his sweetheart.

DIE IN AMBULANCE.

The speech of the three participants had been stifled for ever before the arrival of the police and the hospital attendants, and only circumstantial evidence can tell the story of the crime. A. H. Steward, 120 Thomas arrived with an ambulance, he found the woman kneeling behind the door of a wardrobe which she had held to shield her from the bullets of her assailant. Directly in front of her and lying on his side was Mortyn, and near the door, where he had entered, in an effort to prevent the shooting, lay Randall. There was a slight pulse throbbing in his chest, but when the steward examined him, he found that he was dead. The police arrived at the Harbor Hospital was reached all three were dead.

The story of the love of Mortyn for the woman can be traced back to his meeting her on the arrival of the fleet in 1907, at which time she first began a career in the tenderloin. Her love for him, and her jealousy, and she followed him in Santa Barbara when his vessel was there not long since. Several days ago he left his ship at San Diego bay and came again to this city. Last night, it is said, he waited for the woman to return from her work at the Hippodrome dance hall, where she was employed as a waitress and singer. When she did not come at 1 o'clock his jealousy began to rise, and a quarrel ensued immediately on her entering her room, No. 101, on the second floor of the St. Louis Hotel, 920 Montgomery street.

QUARREL RENEWED.

She was heard to run from the room and then return again to resume the quarrel. Randall entered to quiet them, and it was then that five shots rang out. Three were fired at the woman, one struck Randall in the eye, and the last went into the right temple of the murderer.

Neither of the victims had a chance for life, and the shield sought by the woman in her moment of fear was of too thin material to stay the course of the bullets. When found Miss Cook was bejeweled with diamonds, one of which flung from her finger. Her fingers were covered with rings, a diamond bracelet held a low at her throat, and there was a diamond in the pin which held her watch. Mortyn was attired in his shirt and trousers, he having removed his shoes. Whether or not he pursued the woman and dragged her back into the room at the point of a revolver, could not be learned from the witnesses, but it is thought that this was the case and that she had vainly tried to escape from her infuriated lover. It is known that Mortyn wanted to marry her, and that he was anxious to pay her by men in the dance hall.

The woman has two sisters, both of whom are married. The dead girl was exceedingly beautiful, and did not resemble in any way the class of women usually found in the tenderloin.

SUES FOR DAMAGES

DONE BY EXPLOSION

CHICAGO, March 14.—The United States government is the first claimant for damages outside of Russia, as a result of the explosion of the plant of the E. I. DuPont-Nemours Powder company at Crescent Springs, Wis., Thursday night. Yesterday a claim for \$500 damages was filed by the naval training station at Lakehurst, N. J., asserting that this amount would be necessary to restore broken glass at the station. Lakehurst is twelve miles from the scene of the explosion.

THIS SIMPLE LOTION

GREAT AID TO BEAUTY

"The nearest approach to the fountain of youth," writes Mrs. Mae Martin in the New York Herald, "is certainly a beautifying and inexpensive. This simple lotion is marvellous for clearing, beautifying and preserving the complexion."

"Any woman can make this lotion by getting four ounces salicylic acid from the druggist, dissolving in a half-pint hot water and adding two teaspoonfuls glycerine. This gently massaged into the skin becomes invisible, does not rub off easily like powder, and for a natural aid to beauty cannot be equalled."

"This salicylic lotion is far superior to any other. It not only cleanses and quickly corrects a rough, oily, shiny, yellow or lifeless condition, giving the complexion a smooth, satiny tone. Once you use it, you will have no further use for face powder."

Stenographer's Escort Shoots
Dead a Man Who Accosts
Couple

Armed Victim of Shooting Is
Said to Have Made Threat-
ening Gesture

ROSEBURG, Ore., March 14.—While escorting Miss Lillian Spiker home from a theater late last night, Roy McClallen was accosted by B. A. Mahan, a former employer and avowed suitor of Miss Spiker.

An altercation followed and at its conclusion Mahan is said to have made a motion toward his hip pocket. McClallen was the quicker, however, and shot Mahan under the eye, killing him almost instantly. McClallen was arrested.

The quarrel has been of three months' standing between the combatants. At that time Miss Spiker, who is a stenographer, left Mahan's employ. Mahan, according to her story and that of McClallen, declined to cease paying attentions to the girl, although she asserts she had made known their were distasteful. According to McClallen's statement Mahan had made threats against the former's life and he had appealed, he says, to the district attorney to have Mahan placed under bond to keep the peace. A revolver was found on Mahan's body.

Both McClallen and Mahan were prominent business men of the city. Mahan is said to have been married and divorced. McClallen's wife is in Portland.

VEXING PROBLEM**

Woolner Will Decide Eligibility
Of Annexed District
Candidates.

Formal request for an opinion as to the eligibility of candidates from the annexed district to run for office under the new charter, which demands four years' residence in the city of Oakland as a condition of eligibility, has been asked of City Attorney Ben Woolner by City Clerk Frank Thompson. The state of the city attorney's office will commence work dealing into authorities in the matter today, and will not only canvass all decisions bearing on the matter in the California records, but will lay out decisions in various other states of the Union that may throw some light on the question.

City Clerk Thompson is now almost ready to prepare the ballot for the primary election to be held April 18, and wishes to have a formal opinion on the matter as a safeguard should any question as to his right in the matter be raised. It will take several days before the opinion is ready, as Attorney Woolner is determined that the people of the annexed territory shall be protected to the fullest extent possible.

RECENT DECISIONS.

The recent decision of the Appellate Court of California concerning the status of a newspaper from a district annexed to Los Angeles is so far the most recent judicial opinion rendered in this matter, and is thought by attorneys to disqualify the annexed district candidates. There is a possibility, however, that this is not the case.

The new city charter, in addition to specifying the time of residence necessary to eligibility, specifically sets forth the boundaries of the city at the time of the annexation and ratification of the charter. It is thought that this inclusion of the annexed district as a part of the city governed by the charter may prove a protection to the annexed residents and insure their right to representation as a legal claim as well as a moral one.

Secretary Denison of Chamber
of Commerce Has Abund-
ance of Right Sort.

Secretary A. A. Denison of the Oakland Chamber of Commerce has on hand an assortment of Oakland literature in convenient shape for mailing that would be suitable to send to the eastern people in order to give them an idea of conditions in this section. Citizens of Oakland can make the most effective distribution of this by each one sending to his or her friends and acquaintances in the east. Secretary Denison asks that the men and women of Oakland call at the Chamber of Commerce and procure the booklets, folders, and other post cards which can be enclosed in their ordinary correspondence envelopes. Hundreds of thousands of these pieces are available and should be used as quickly as possible.

During the past year the fame of Oakland as one of the most progressive cities of the United States has spread throughout the east. There is a great deal of interest in all things connected with this city and this can be increased with the result that visitors and settlers will be attracted here in increasing numbers if the work is kept up. Oakland is on the upgrade with the full heat of steam and engines equipped to carry the machine along the road. By all the citizens taking an interest and each doing his and her part the coming year will be made one of the most notable in the annals of Oakland.

ACCUSED EMBEZZLER

SAN FRANCISCO, March 14.—Francis H. Robinson, accused by Esther Hoover, a California woman, of embezzling \$500 from her, was placed on trial before Judge Cavanaugh today. Robinson had been charged with the embezzlement of the alleged offense as committed May 17, 1910.

AID GIVEN IN FIGHT ON BILL

At the meeting of the board of directors of the Chamber of Commerce this morning communications were received from the mayors of Oakland and San Francisco, a communication was received from Congressman Joseph R. Knowland containing the information that he had seen Assistant Secretary of the Treasury Hillegas and the latter had agreed to let the matter rest until Knowland's return from Panama, when Knowland would use all his influence to prevent the carrying out of the proposed change.

The board discussed and passed a resolution proposed by President H. C. Capwell recommending that the city as soon as possible proceed to the

numbering of houses in the recently annexed district east of Seminary avenue, which at present is without numbering. This matter has also been taken up by Capwell with the mayor in person.

It was decided to leave the arrangements in the matter of automobiles for the use of the Commercial Travelers at their coming convention to the Progress and Prosperity Committee.

It was provided that a committee should be appointed to make arrangements for an Oakland day at the National Education Association convention in July. The executive committee recommended that the Chamber of Commerce should put itself on record as being ready to accept contributions to aid the famine victims in China.

The directors were addressed by two members of the Melrose Improvement Club, M. W. Nicholson, president of the club, and L. A. Barker, who asked that the board put itself on record as opposing the grant of a franchise to the Oakland Traction Company for a car line on the old county road from High street west to Thirteenth avenue. This the board referred to the committee on railroads and transportation.

DENTAL EXERCISE NEEDED, HE SAYS

New York Physician Declares We Fail to Work Teeth Enough.

NEW YORK, March 14.—The reasons Americans have such bad teeth is that they don't exercise them much, according to Dr. H. B. Wheeler, president of the American Dental Hygienic Council, who is delivering a course of lectures at Columbia University.

"We Americans are living in the lap of luxury," said Dr. Wheeler, in his opening lecture, "and our food is so well prepared for us that we don't use our mouths enough. Regular exercise for the teeth is as beneficial as any other kind of gymnastics."

He found from an examination of several hundred savages' teeth that the increased work which their mouths had been made to do had resulted beneficially for their teeth. It was also a fact that the front teeth of savages were much stronger than those of civilized people, the reason being that the savage cuts his food with his teeth. "The uncivilized way is better for the teeth but it does not look so well," said Mr. Wheeler.

STUDENTS HEAR WOMAN LECTURE

Mrs. Macdowell, Widow of Composer, Tells of Memorial Association.

An event of unusual interest in the world of school affairs was the lecture given by Mrs. Edward A. Macdowell, widow of the noted American composer, in the Common School Assembly Hall this afternoon. Only students and pupils of the city high schools were able to attend the lecture on account of the small size of the auditorium.

Mrs. Macdowell is accompanied by Miss Zelina Bartholomew, who sings Macdowell's songs at the lectures. Mrs. Macdowell, who was for twenty-five years the companion and helper of the brilliant American composer, tells in an interesting manner the features of the Macdowell movement which has been started at Hillcrest, the former home of the gifted musician.

To an accompaniment of carefully chosen Macdowell numbers, a selection of stereoscopic views of the Peterborough pagent of 1910 is shown and described. Musical and club folk have evinced a deep interest in Mrs. Macdowell's lecture wherever it has been delivered.

The high schools of the city closed today in time for all to arrive before the beginning of the lecture. The program was as follows:

Introduction—"Macdowell Memorial Association, Its Origin, Present Conditions and the Possible Future of the Work."

"The Peterborough Pagent of 1910," stereoscopic illustration.

Pagant Music—"To a Log Cabin," "Indian Idyl," "1620," "Indian Lodge," "Uncle Remus," "In Autumn," "To a Wild Rose," (Edward Macdowell). Mrs. Macdowell and Miss Bartholomew.

Runs Amuck Through House, Wrecking Furniture and Trailing Fire.

HARRISBURG, Pa., March 14.—A lightning bolt that inflicted freak peregrinations parted at an iron bed, left unharmed a couple sleeping there, while it destroyed chairs, pictures and other furniture in the room, and caused the destruction by fire of the two-story home of David Fulk near Singara Glenn yesterday.

The electric flash shattered the roof of the house, set fire to a vacant bed, darted into the lower room occupied by Mr. and Mrs. Fulk, divided at their iron bedstead, wrought havoc in the room in about 10 minutes, shot out into the kitchen, shattered every window and left a trail of flames throughout the entire building. The terrified couple escaped in their night clothes.

GATES PLANS GREAT GOTHAM BREAD TRUST

NEW YORK, March 14.—A \$30,000,000 corporation, with the backing of John W. Gates and his friends, with branch establishments in a score of big cities, soon will announce that it will fight the billion loaves a year market of New York city and its surrounding territory.

Just a week after it was announced that the Ward bread company, a \$5,000,000 corporation, was to enter the lists soon against the big independents, it has become known that Max Oscher, for years a Gates agent, had gone far in the organization of about thirty large baking companies of the country under the name of the National Bread Company.

The program, according to plans, is to erect its own bakeries and plunge into a fight for the market.

UNITED STATES DISTRICT FORESTERS WILL CONFER

WASHINGTON, March 14.—Chief Forester Henry Graves will leave here Wednesday for Salt Lake City, where he will attend the conference of United States district foresters, which begins there March 20. Plans for the administration of the national forests for the coming season will be discussed at the conference. Some little time will be given to the formation of plans for the protection of forests against the ravages of fire during the coming autumn.

Upon the adjournment of the conference, Mr. Graves will leave for California to inspect some of the national forests in that state. He will be gone about six weeks.

WRIGHT PREDICTS 120-MILE SPEED

Noted Aviator Declares Aeroplane Will Sometime Fly at That Rate.

NEW YORK, March 14.—"We Americans had the fastest aeroplane at Belmont park last year, although hard luck put us out of the race, and I think we have the fastest machine at the English meet."

This was Wilbur Wright's parting declaration of confidence before sailing today for Europe on the Kronprinz Wilhelm. "A 100-horsepower 'Baby' Wright," he continued, "ought to develop speed a great deal higher than seventy miles an hour and carry off first prize for America, if all goes well."

"However, we have not yet made definite arrangements for entering the contest. That is a part of the business I usually leave to my brother. In developing our racer, we are now trying for the maximum reliability and control. We have all the speed we want or can use, and we are constantly seeking for a combination of the most power, lightness and strength."

"There is no question in my mind but that the aeroplane can develop a speed of at least 120 miles an hour. It is all a matter of power. I would not care to drive one at that rate. The higher the speed the greater the danger is anything happens to machine or aviator."

WOMEN TESTIFY IN MELBER CASE

Many Witnesses Declare Alleged Slayer of Child is Mentally Unsound.

ALBANY, N. Y., March 14.—With a long list of witnesses, many of them women, summoned to testify to the mental unsoundness of Mrs. Edith Melber, on trial for the murder of her little son, it developed today that the defense might not be able to reach before tomorrow the experts upon whose testimony they hope to establish the fact that the defendant was mentally incompetent when she committed the crime.

Mystery continues to attach to the reason of the defense in insisting on the attendance in court of Howard Kirk, who has figured as Mrs. Melber's close friend prior to the tragedy for which she is on trial. Imposing exhibits of art embroidery by Kirk, piled on the desk of the defendant's counsel, are highly stimulative of curiosity.

KOLB AND DILL FIGHT LEGAL WAR IN NORTH

PORTLAND, Ore., March 14.—The difference which led to the separation of the famous team of comedians, Kolb and Dill, reached another acute stage in Portland yesterday, when C. William Kolb, who has been playing a vaudeville engagement here, engaged attorneys to enjoin Dill from the production of "Lonesome Town," their well-known comedy of years ago. Dill is at the Grand theater in Seattle, and opened with the play on Sunday night.

Kolb claims to own the play, and alleges that Dill has no right to the production.

Kolb took the matter up with John Cort, manager of the Grand, and was informed that Cort would not stop the production. Kolb last night instructed Seattle attorneys to prepare an application for an injunction and deposited a check for \$1000 with Frank Coffinberry, manager of the Portland Orpheum, as a bond. The check will be forwarded to John W. Considine at Seattle, to be cashed and the money to be turned into court.

COMPELLED TO LEAVE SCHOOL

Nervous from Childhood and Feared Paralysis.

This Missouri Girl's Condition Was Serious and Seemed Hopeless but the Tonic Treatment Cured Her.

The value of the tonic treatment of nervous troubles by the use of Dr. Williams' Pink Pills lies in the fact that these pills do not stimulate the already exhausted nerves to keep up their work for a time longer but that they replace the depleted nervous energy.

Miss Susan M. Kerr, of No. 9 Merrill street, Trenton, Mo., who tried this treatment says:

"Ever since I was a child I had been troubled with nervousness. My parents first noticed it when I was about five years old. They thought it was nothing serious but after I commenced going to school, I became so much worse that I had to drop my studies. There was a continual jerking all over my body. I had no control over my limbs and could not hold anything for fear of dropping it. My left side was sort of paralyzed and the left side of my face was constantly jerking. I could not write or even hold a pen or pencil. The least noise or disturbance excited me so that I would go all to pieces. I was a nervous wreck and always afraid of falling. My stomach was very weak. I was confined to bed for a day or so at a time."

"I was treated by several doctors. One said I had nervousness, another St. Vitus dance, while one said I had paralysis of the face. None of them gave me much relief, although all of them said they could cure me. After I had been sick for a long time I gave up all doctors' treatment and began taking Dr. Williams' Pink Pills as advised by a friend. After I had taken the pills a while I could begin to use my hands and legs. I gave the pills a steady trial and have not been troubled since. Dr. Williams' Pink Pills gave me new blood and strength and I heartily recommend them."

Dr. Williams' Pink Pills are sold only in packages, never by the dozen or hundred. The genuine are sold by all druggists or will be sent by mail, postpaid, on receipt of price, 50 cents per box; six boxes for \$2.50. Write Dr. Williams Medicine Company, Schenectady, N. Y. Every one interested in the above case should send for the new edition of our booklet, "Nervous Disorders." It is free on request.

Poll Tax Notice

Oakland, March 6th, 1911.

Notice is hereby given that the State Poll Tax of two dollars for the year 1911 is now due and payable at the Assessor's office, room 302, Court House, or to a Deputy Assessor.

Sec. 3839 of the Political Code reads:

Every male inhabitant of the State, over twenty-one and under sixty years of age, except insane persons and Indians, must annually pay a Poll Tax of two dollars, provided the same is paid between the

First Monday in March and the First Monday in August.

Then it shall be three dollars.

Sec. 3840 of the Political Code makes it the duty of the Assessor to demand Poll Tax of every person liable therefor and on the neglect or refusal of such person to pay, he must collect by seizure and sale of any personal property owned by such person.

Under Sections 429 to 435 every person who refuses to give his own name or the name of any person in his employ, or who in any manner obstructs the Assessor or any of his deputies in the collection of the State Poll Tax, is guilty of a misdemeanor, and liable to a fine of \$500 or imprisonment in the County Jail, or both such fine and imprisonment.

Only those persons under twenty-one or over sixty years of age are exempt. Poll tax must be paid on demand.

HEART--TRIBUNE'S PAGE FOR WOMEN--HOME

THE wedding of Miss Deane Tisdale and Edward L. Varney will take place tonight at the family home of the bride in Alameda, which will be in bloom with pink and white fruit blossoms.

About 50 friends will witness the ceremony, which will be solemnized in a bower of pink and white in the drawing-room.

The bride will wear her mother's wedding gown of white satin, made with rare old lace and the conventional wedding veil will be worn with a coronet of orange blossoms.

Attending her will be her two sisters, Miss Ruth and Miss Dorothy Tisdale, who will wear dainty frocks of pink marquisette over pink mull and both will carry an armful of pink carnations. Mrs. Tisdale will wear a handsome gown of blue, made over pink.

The bridegroom's brother, Howard Varney, will be best man for the occasion. Miss Tisdale is one of the most sought after girls in the smart set of the bay cities and during the past month has had a constant round of teas, lunches and dinners given in her honor by her wide circle of friends.

She is the daughter of Dr. and Mrs. C. L. Tisdale, a prominent family of the Emerald City.

Mr. Varney, who is also prominently connected, will take his bride south on the honeymoon, after which they will make their home in the north.

WOMEN IN THE NEWS

NAT FINDS HIS FIFTH WIFE ON STAGE

Much-Married Actor to Wed Miss Margaret Moreland, Says Rumor

NEW YORK, March 14.—It is reported on good authority that Nat Goodwin is to be married for the fifth time just as soon as his present wife, Edna Goodrich, is granted a divorce. That the present Mrs. Goodwin will be given a divorce seems to be no doubt. The fifth wife will be Miss Margaret Moreland, leading woman in Goodwin's version of "Land Me Five Shillings," playing in vaudeville.

On tour together Goodwin and Miss Moreland are seen together very frequently. They dine together and motor together so much, in fact, that it is really the exception to see either alone in public.

Hail, the Pasha!

CHICAGO, March 14.—"The hobble skirt is dead. Long live the harem skirt and its little brother, the pasha skirt," was yelled by hundreds of fashionable modistes who are at the Palmer House for the opening of the dressmakers' convention today.

They say the departing hobble was only a poor, tame, spiritless thing, which should have been strangled to death long ago. Now, the harem and the pasha, the dressmakers say, are something "spiced, stylish, pleasing to the eye, noticeable and comfortable."

And there is no coy hesitancy in the name chosen. It stands out in bold relief as the pantalon skirt.

"Society women christened the skirt," Mrs. Ripley, president of the convention, said. "And, by the way, no woman will be able to put her skirt on over her head this year."

"The color to be worn by women will be the 'coronation purple,' the 'Helen Taft pink,' and last but not least, 'radish red.'"

Scores Suffragette

SAN DIEGO, March 14.—Doctor Prieto, Mexican consul at San Diego, has telegraphed to the war department at Washington protesting against the actions of Flora S. Russell, an American suffragette, who planted a rebel flag upon Mexican soil on Sunday within five miles of Tia Juana, and practically within sight of the Mexican federal troops now guarding that section.

Mrs. Russell, believed to follow telegraphic instructions from President Diaz, The Mexican government asks that the woman be prosecuted for inciting rebellion in a friendly nation.

Miss Russell, after making her escape across the border, came to San Diego and left at midnight for Los Angeles, where she is now believed to be. Army officers say the woman will not be arrested.

Wanted Hat; Took it

SACRAMENTO, March 14.—Miss Rosa Simpson, 23 years old, a waitress, and good looking, wanted a new hat, so she walked into a department store shortly before closing hours and went up to the millinery department.

She tried on several hats, and finally determined on a selection.

"Here's \$2," she said to the clerk, "please lay it aside for me."

As the clerk turned away Miss Simpson picked up another hat, a stylish one, trimmed with roses and ostrich plumes, put it on, and walked away.

But before she reached the street she was arrested.

Her employer furnished \$100 bail for her and today she will answer to a charge of petty larceny.

Suffragists Win

CARSON, Nev., March 14.—After an afternoon session turned over to suffragists, a number of whom pleaded with the senators to allow a state vote on the question of women's suffrage, the state senate yesterday passed the house bill calling for a popular vote two years hence to decide whether women shall vote in Nevada.

The constitutional amendment granting votes for women it will be four years before the reform can become operative.

Says Hubby Left

RENO, March 14.—Mrs. Grace B. Warren yesterday told Judge Orr that her husband, George W. Warren, was until recently telegraphing her to the California race tracks and now owns a ranch in the southern part of that state. She was given a divorce for desertion. He said he was tired of her, she testified, and he had been deserting her since he came to San Francisco after they had been married ten years.

Tries it Again

SACRAMENTO, March 14.—"I'm going to try it again," said Theodore E. Clark, after the granting of a final decree of divorce to his wife, who had avowed in her complaint that his baths were infrequent. Then he visited the marriage license clerk and secured a license to marry Nancy E. Hodson. And Nancy E. Hodson has been married twice before.

Mrs. Primrose Quits

NEW YORK, March 14.—The suit for separation brought by Esther Delmore against George H. Primrose, the minister, was marked discontinued yesterday by Supreme Court Justice Guy on consent of both parties. It was stated that they have been reconciled.

Gilder to Wed

NEW YORK, March 14.—Eodman D. Gilder, son of the late Richard Watson Gilder, and Louise C. Tiffany, daughter of Louis C. Tiffany, vice-president of Tiffany & Co., obtained a marriage license at the City Hall yesterday. Gilder is 34. He is in the electrical manufacturing business. Miss Tiffany is 23. The wedding will take place next month.

American Girl's Husband Honored

MRS. MONTAGUE ELIOT, American wife of British Royal Usher.

LONDON.—By the elevation of Montague Eliot to be a gentleman usher in the royal household of King George of England court glories have come to another girl of American descent. Mrs. Eliot was Miss Helen Agnes Post, one of the most popular girls in London. She is a daughter of Lady Barrymore, who was the daughter of the late James Wadsworth of New York.

Court Scores \$10,000 Award to Woman

NEW YORK.—Justice Erlanger, in the Supreme Court, declared the verdict of \$10,000 awarded by a jury to Miss Henrietta French of Pierre, S. D., against David H. Decker, Jr., of New York, a civil engineer, excessive Miss French sued for \$25,000, alleging breach of promise.

"It is a sympathetic verdict," the court said, "and is based entirely on sentiment. It has not been shown here that the plaintiff was put to any monetary expense because of the breach of promise."

She did not claim that she bought a trousseau or expended any money as a result of the alleged promise to marry.

"There was no proof that any of the 25,000 persons in her home knew of promise."

OAKLAND'S BOYS AND GIRLS

MAKES APPEAL FOR PARK IN HIS AMATEUR PAPER

IRVING DORN TELLS NEED OF EAST OAKLAND

An appeal for a playground for the children of East Oakland has been made by Irving Dome, an 15-year-old boy, who has published a very convincing article in an amateur journal and newspaper which he edits and publishes monthly.

Young Dome is a student in the John C. Fremont high school, and aspires to become a journalist. For several years he has been devoting his spare time to writing juvenile stories for newspapers and magazines.

One of the most important messages which the lad has presented to the people of Oakland is the following request for playgrounds:

"Ever since the introduction of the playground into our city and the equipment of the public school grounds for such various citizens of this district have indicated the opening of the Franklin school grounds as a place of recreation for the children."

"There is no reason why that the children of this section should not enjoy the privileges that the children of other sections of the city do. That is, the privilege of enjoying a playground."

"We have a spacious site in the grounds of the Franklin school, where an ideal playground could be installed. It is centrally located and convenient for all."

"We want to impress your minds with this idea. There is no reason why it shouldn't materialize. It is up to you as citizens to pass the matter. If you have children or not, do your part, as it's for the child's welfare."

"Think about it! Talk about it! Act about it! The boys and girls of this community appeal to you, citizens, for a place to play."

LOS ANGELES.—When Patrolman Riggs entered a penny arcade at 146 North Spring street expecting to rescue a woman from the clutches of some horrible man, his hopes were rudely shattered. He found the woman sitting on the floor.

Riggs heard a woman's screams for help and saw a crowd at the entrance of the arcade. In the middle of the crowd he found a demure little woman of 120 pounds sitting on the chest of a much larger man. The woman was

pounding the man with her dainty fists until he yelled for mercy.

"Never again, do you say?" said the woman. "All right then, I'll let you off with that!"

She planted one parting cuff behind the ear and turned the man over to the officer.

An hour later the woman gave her name to Assistant District Attorney Shannon as Mrs. Agnes Level. She said that she was relieving the cashier in the arcade when the man, who gave his name as Charles Harset, approached her with an insulting remark.

Harset appeared before Police Judge Frederickson and was fined \$20, with the alternative of passing as many days in jail.

TRAMP HERO SAVES LIFE OF YOUNG BOY

REDWOOD CITY, March 14.—A tramp proved himself a hero yesterday when, at the risk of his own life, he jumped into a large pond of water opposite the bent Southern Pacific station, to save 15-year-old Howard Collins from drowning.

Young Collins and a number of companions play at the pond daily after school hours. Collins was on a raft when it overturned and threw him into the water. He had gone down for the second time when an unidentified tramp went to his rescue. The lad was unconscious when dragged from the water.

Young Collins is the son of Albert Collins, a civil engineer, and a brother of Dr. Asa Collins of San Francisco.

Disquieting Reports From the Chinese Frontier Reach St. Petersburg.

Mongolians Deep Seated Distrust Blamed for Present Military Show

ST. PETERSBURG, March 14.—The Russo-Chinese frontier has developed three distinct situations, each of considerable concern to this government. In the first place, there has been a distrust and resentment in responsible more than anything else for the failure of amicable negotiations. Next, the Novoe Vostok massing of troops has given rise to the belief in the government over the measures to be taken against China. The third situation is revealed today in dispatches from the Chinese frontier. These dispatches describe a disturbance among the Mongolians over the poor quality of the food provided for them. An outbreak was prevented only by the fact of the commanding general who ordered the government to take prompt measures to remove the cause of dissatisfaction and adequately to organize supplies for the expedition.

TASK COMPLICATED.
The task of the commissary department is complicated by the primitive character of the country, the lack of roads and a consequent delay in supplies on a long line of communications. The news of the movement of troops is vaguely referred to in the Novoe Vostok as the non-official publication of such news is a criminal offense in Russia. Other papers published on the matter, it is stated here, show that the situation created by Chinese building has caused a realization that the Russo-Chinese relations are less satisfactory than had been thought.

China's suspicion of Russia's good faith and the resentment of supposed invasion is blamed.

MILITARY SHOW NEEDED.

The sole cause left open to St. Petersburg was a serious military action which would not shrink from permanent measures in the Far East. Military circles are of the opinion that such a move is a necessary condition for the occupation of Northern Manchuria along a line of demarcation from Kwantung to Kiam a possibility. A correction of the frontier of Manchuria in Mongolia also is held to be necessary.

The military party frankly favors utilizing the crisis to strengthen the Russian position in the Far East and to conduct the frontier strategically at Chinese expense. This means that Russo-Chinese relations are so strained that a crisis can be gained from China at any time.

RESTRICT ACTION.

The cabinet, however, is divided to restrict the military action to the least necessary. This attitude was determined on at a conference of Premier Stolypin and Finance Minister Kokossov who have taken a common line during the crisis of the Russo-Chinese situation. The Novoe Vostok in an editorial, calls for the appointment of responsible ministers to replace Saranoff who is implicated in a critical period, and says that the cabinet and the Duma should be reconstituted. That according to the constitution the cabinet is obliged to resign promptly and that the Duma is obliged to appoint a new cabinet is a matter of course. GOVERNOR SIGNS RECALL MEASURE

Senator Black's Measure Goes Into Effect in 60 Days.

SACRAMENTO, March 14.—Senator Black's bill providing for the initiative, referendum and recall for all municipalities, received Governor Johnson's signature and becomes a law at the expiration of sixty days. This bill provides for recall elections of elective municipal officers, any time after they have held office four months, upon petition of 25 per cent of the registered voters of the municipality. The officer against whom the recall is directed is made a candidate for re-election unless he states otherwise. Municipal legislation may be initiated upon petition of twenty-five per cent of the registered voters, and unless the governing body passes the proposed legislation, without amendment, it shall be submitted at a special election within thirty days. If the petition carries signatures of only ten per cent of the voters, unless the measure is adopted by governing body, it shall be submitted at the next regular municipal general election.

MEET TO DISCUSS BROOKLYN BASIN

ALAMEDA, March 14.—Under the auspices of the North Side Improvement Club of Alameda, a meeting was held Wednesday evening to discuss the improvement of Brooklyn basin. The same purpose prompts the calling of a meeting for the purpose of considering the question of protection for the north end of Webster street, Alameda. This meeting will be held at the Chamber of Commerce meeting room in Oakland through the courtesy of the Oakland organization, and will be held at 8 o'clock. The speaker is the leading spirit in both meetings.

FACTIONS CLASH IN CITY COUNCIL CHAMBER

Arguments Are Presented for And Against Granting of Franchise.

Petitioners and protestants concerning the granting of a franchise in East Sixteenth street from Thirtieth avenue to High street clashed before the city council last night, and the decision in the matter was finally deferred for a week during which the councilmen will go over the route involved and make further investigations.

A large lobby was in attendance, the petitioners explaining that the new car line was much needed, but asking that the residents be given some assurance that the road would not be used as a freight road. This was given by Attorney E. W. Engle for the traction company. The protestants complained that the granting of such a franchise would kill the possibility of putting through East Sixteenth street between Thirtieth avenue and High street. Members of the Melrose Improvement Club appeared before the council last night, explaining that it was their purpose to ask the city to extend the Fourth street boulevard through that district to connect with Lake Merritt. This was entirely in opposition to the petition laid before the council by property owners of Steinerway Terrace requesting that a franchise be awarded the Oakland Traction Company with certain restrictions as to the hauling of freight.

MELROSE OPPOSED.

Protesting that they did not favor any railroad along East Sixteenth street between Thirtieth avenue and High street, members of the Melrose Improvement Club appeared before the council last night, explaining that it was their purpose to ask the city to extend the Fourth street boulevard through that district to connect with Lake Merritt. This was entirely in opposition to the petition laid before the council by property owners of Steinerway Terrace requesting that a franchise be awarded the Oakland Traction Company with certain restrictions as to the hauling of freight.

Other members of the club spoke along similar lines.

HISSES ROUSE LOVETT HOME AFTER TOUR OF U.C. CO-EDS OF WEST

University Basketball Players Declare They Were Hooted At Reno.

Defeat Too Bitter a Pill for Sagebrushers, Says Coach.

The gun that was heard 'round the world was a whisper beside the hiss that has crossed the mountains from Reno. Because, according to Miss Mary Shaffer, the girls' basketball team of the University of Nevada were defeated by the University of California girls' basketball team at Reno Saturday evening, the townspeople and students of Reno hissed and jeered the party of the big "C" who represent the most clever set of basketball players in the state of California.

The score was 24 to 17 in favor of the University of California. The game was said to have been the most strenuous in the history of the state team, which has won many battles. It is stated that it was the roughest that the blue and gold team has ever experienced, and at the same time it displayed the best team work ever exemplified by the girls of the California squad, which was represented by Miss Mary Shaffer, coach; Miss Cameron, referee; Miss Katherine Ascher, forwards; Miss Lorena Buck, Miss Frances Jacqueline, Miss Florence Cassidy, centers; Miss Doris Spencer, Miss Edith Frisbie and Miss Madeline Spencer, guards. Miss Sam Hunt was the manager.

DEFEAT WAS BITTER.

The Nevadans had never tasted defeat at the hands of a rival team and it was a bitter pill to swallow, according to the California girls, in sympathizing with the students of the Nevada university, who are said to have joined in hissing and hooting from the gallery of the big university gymnasium. The University of California girls declare that the citizens of Reno could not control their feelings and loyalty to the institution. The hisses and jeers came from the gallery, the basketball fans who were seated in the lower part of the gymnasium maintained their dignity. No representatives of the State university accompanied the team to Reno and no California spirit was exhibited from the side lines.

UNSPORTSMANLIKE CONDUCT.

"The Nevadans showed unsportsmanlike conduct, despite the fact that we must make allowances for college spirit," said Miss Mary Shaffer, coach for the University of California girls' basketball team. "Their defeat resulted from a lack of knowledge of the game. They were uneducated to the sport. In this they don't know good, straight, clean basketball." The bleachers roared constantly for the Nevada girls and the referees' whistle could not be heard half the time. The Nevadans were provoked about ten times as much as the University of California girls. It was a terrible rough game, played on a slippery floor at night, at an elevation of from 2000 to 4000 feet, at which our girls were unaccustomed. They were working against great odds and they played an excellent game.

CHARGES RELATIVES INFLUENCED HIS WIFE

SAN FRANCISCO, March 14.—Certifying as his wife's sister-in-law, and mother-in-law, had influenced his wife and forced her to obtain a divorce from him, Harry Baker Street, residing at 311 Baker street, asked to have the case reopened in the Superior court today. Baker's grounds for his new discovery, evidenced by combat that occurred by his wife, Malet, who divorced him on the ground of adultery and obtained the custody of their five children.

MRS. CAMP TO ASK \$100 MONTHLY ALIMONY

SAN FRANCISCO, March 14.—Mrs. May Camp, who filed a divorce action against Dr. Calvin E. Camp, a prominent physician and surgeon, on Monday in January, charging cruelty, filed today a petition for \$100 monthly alimony pending the suit.

MANY CANDIDATES ARE SATISFIED

What is a campaign without proper facilities to meet emergencies? Night or day the little election card is indispensable. Wherever the prospective city official or servant of the public wanders he must be liberally supplied with portable election cards. The finest photo engraving plant on the coast and best printing presses are to be found in THE OAKLAND TRIBUNE building, corner Eighth and Franklin. Not a disappointment; every order for printing turned out at once.

Campaign Made Easier by Good Work in Begginning.

For the purpose of more firmly organizing the Boy Scouts of this city and surrounding territory, a meeting has been called for those interested in the movement to be held Tuesday evening, April 4, in the offices of the Playground Commission, 1258 Broadway. An appeal has been made for young men to act as scout masters in the nine districts into which this territory has been divided. It is pointed out that persons of good moral standing are needed for the work in order that a good moral influence over boys may be exerted.

The scout master is the adult leader of a troop. A troop consists of three or more patrols. He must have a deep interest in boys, be genuine in his own life, have the ability to lead and command the boys' respect and obedience and possess some knowledge of the boys' ways.

144 DIE EACH DAY FROM PLAQUE PUT MAN ON BOARD

George J. Gould Retires as Head of System to Chairman of Trustees.

Election of New Directors Passes Off Quietly, Despite Fear of Opposition.

WASHINGTON, March 14.—Fully one-fifth of the population of the Northern Manchuria city of Fuchien had perished from the ravages of the plague from the time of its outbreak to the end of January, according to reports from United States Consul-General Greene at Harbin. The exact number was 1442 in Fuchien alone, while in Harbin the total reached 821. No definite results have been determined as to the preventive treatment. Three European and two Chinese physicians have succumbed to the disease and several Russian assistants and attendants who had been properly inoculated, have died of plague. The epidemic is having a disastrous effect on trade. Many Chinese firms have closed their doors entirely. Among the Hessians there is less fear.

While the official figures of the deaths at Fuchien show 144 perished daily during the week ending January 24, it is generally believed that about 200 perished daily and that altogether nearly 4000 have perished there or in the immediate vicinity. The Russian authorities at Harbin are maintaining four laboratories in which the necessary bacteriological examinations are made to verify the diagnosis of new cases. Inoculations with plague vaccine are being made free of charge at two places in Harbin. No definite results have been determined as to the preventive treatment. Three European and two Chinese physicians have succumbed to the disease and several Russian assistants and attendants who had been properly inoculated, have died of plague. The epidemic is having a disastrous effect on trade. Many Chinese firms have closed their doors entirely. Among the Hessians there is less fear.

CLARKE REPRESENTATIVE.

Charles I. Clarke, erstwhile votes for Kuhn, Loeb-Rockefeller interests. Mr. Clarke took J. J. Stocum's place on the directors of the Missouri Pacific Railroad Company at the stockholders' meeting here today. The men are E. B. Fryer, now fourth vice-president of the Wabash; S. F. Fryer, former purchasing agent of the Missouri Pacific; Charles S. Clarke, first vice-president of the road, and R. Lancaster Williams, who represents an independent faction among the stockholders. The election of directors which a month ago threatened to be exciting, passed off quietly. It means a reorganization of the Missouri Pacific-Iron Mountain and Southern met at the same time and elected directors. The directors of the road are:

George J. Gould, B. Nicola
Stocum, Jay Gould
Kuhn, C. S. Clarke
Frank J. Gould, O. L. Garrison
Stocum, E. C. Stocum
R. M. Galloway, B. F. Edward

How is your courage today? Can you keep it up eight days longer; or are you going to show the white feather at the end and lose every hope of winning that you have had so far? It would be foolish, indeed, to do that, because, for anyone who has made a substantial gain so far the prospects of winning are excellent.

The case today stands something like this: There are not very many active candidates arrayed against you in any district, but those who are working may be counted on to make great progress during the last week of the contest. It would be too bad for you to lose your place among them just because you grew a little careless at the last minute.

In other words, your opportunities are great if you will make use of them.

OPEN THE DOOR.

The man who refused to open the door when opportunity knocked gave as an excuse that he thought it was the bill-collector.

The wise man is the one who recognizes the difference between the knock of the unwelcome visitor and the call of a splendid opportunity.

If the knocking of THE TRIBUNE's prizes at your door sounds unwelcome, just sit still and pay no attention. But when you see that someone else opened and let in a splendid Touring Car or other handsome prize, we beg that you will not blame us for not giving you the same chance.

There will be no one to blame but yourself, and you know what a mean feeling it is to have to blame yourself.

DON'T HESITATE NOW.

This is no time to hesitate. Go to all of your friends and tell them that if they mean to help you they can no longer delay. It would do you no good whatever if they came with offers of five-year subscriptions the day after the Contest closes.

THE TRIBUNE after all is worth a great deal more than the subscription price, and they will be glad to have it.

If they do not care to have the paper started at once it is only necessary to write the date, at which the paper should start, across the face of the subscription slip which you turn in to us. If an old subscriber should be paid up for some time in advance it is perfectly safe for him to make another payment in your favor, and this payment will apply from the date of expiration of the present payment.

Visit, phone or write every one of your acquaintances so that you will have a fine prize to show at the end.

DAILY THOUGHTS FOR YOU.

Something done every day is worth more than irregular bursts of speed. At the close of each day ask yourself whether you have done all you possibly could during the past 24 hours. If your conscience is not clear on that point waste no time in idle regrets, rather determine to do better tomorrow.

In the morning you say to yourself: "Yesterday is gone. Tomorrow is at hand, the time to get busy is today." Soon there will be no more tomorrows for you as a candidate. Try to do so well for the coming week that all the yesterdays of the Contest may be bright memories with you.

They will be, if you can say to your friends, "I won this splendid Chalmers Touring Car in a few short weeks, by my own efforts in THE TRIBUNE'S Contest."

NO MORE COUPONS.

This is your last opportunity to clip Coupons. None will be published tomorrow nor on any future day of the Contest. All the Coupons which you wish to be placed to your credit should be in the Contest Department on March 15th.

Out-of-town candidates will be allowed the extra time necessary to mail their Coupons.

STUDY THE VOTE RATE.

Study the new vote rate carefully, as it shows you just what you can gain on subscriptions up to the very end. The rate is not quite so advantageous as during the first vote, nor can you gain 9000 votes on a new yearly as during the Bonus Offer, but it is a good, rewarding rate, and one that should inspire you to make the most of it.

A new yearly is worth 8000 votes, and if you neglect securing some you might have won while the person who is now even with you is active in getting every one possible, there is no doubt which will be in the lead on the last day.

If you were actually running a race you would not be wasting your time looking to see who was nearest to you, and whether those steps behind that are pounding in your ears are now one or two jumps from you.

At least, if you did look you would be foolish, for you could make better

MAYBRAY GANG PLACED ON TRIAL

Eleven Men Indicted Two Years Ago Face U. S. District Court.

COUNCIL BLUFFS, Iowa, March 14.—Eleven men indicted two years ago for fraudulent use of the United States mails and known as the associates of John C. Maybray, now serving a term in the federal prison at Leavenworth, Kas., for a similar crime, were brought to trial today in the United States district court.

Maybray was convicted of using the mails to defraud by means of fake sporting events, horse racing, prizefighting, wrestling bouts and foot races being his specialties.

The men brought to trial today, all of whom are under known aliases, are charged with being "aiders and abettors." Their names are given as T. Ryan, a Hot Springs, Ark., saloon keeper, captured in California; Wright, caught in San Antonio, Texas; Tom Daves, Okla.; C. Hindman, known as "Honey Grove Kid," caught in New York; A. E. Smith, Streator, Ill.; R. E. Tielman, once a member of the Cleveland baseball club, captured in Seattle; Benjamin Marks, Council Bluffs.

The other four, although under indictment, are not expected to appear for trial. Two of them are believed to be dead. The case against Marks, who is a wealthy operator of this kind of business, was postponed at the last trial because of his illness. Two brothers named Philbrick have been in jail in Baltimore but it is not certain that their cases will come to trial.

Several of the indicted men have pleaded nolle contendere and have been given light sentences.

GILDED YOUTH IN SHOOTING SCRAPE

Charles R. Drummond Shoots at Parisian Dancer and Hits Himself

PARIS, March 14.—The mystery of the two merry "midnight Americans" who registered at the fashionable Ritz under the name of Lee several weeks ago and who have been spending \$2000 a day in the gay hours before dawn, was partially penetrated early yesterday when one of them tried to shoot the dancing girl, Lillette, and her male partner in the Cafe de Paris.

The young man only succeeded in planting a bullet in his own leg and in attaching to himself the convincing report that he is none other than the spectacular young Charles R. Drummond, millionaire really man of St. Louis, son of the late tobacco Croesus, proprietor of four floaterboats and "wanted" in St. Louis for circulating parole while under sentence for bigamy.

When Drummond appeared from the western city he was accompanied by his friend, William V. Logan.

One of the pair who registered at the Ritz received mail addressed to William Logan Lee.

SHOOTING AT MONTREAL, TOO.

The two went to Montreal from St. Louis and after a little friendly shooting affair there, in which one of them fired at the other, they went to New York and sailed for Paris.

Mystery cloaked them from the day of their arrival here. The name "Lee" became a synonym for lavish entertainment, gay parties and jolly auto rides—for they had a magnificent high-powered car which awaited them at the entrance of the Ritz every evening.

The Cafe de Paris was one of their favorite haunts. Sunday night they were accompanied thither by the dashing Lillette.

The evening waned and the morning dawned on its way when Morris, the male dancer of the cafe, presented himself and invited Lillette to dance with him.

For some reason one of the Lees—the one named Lee—was in a bad mood. He saw the male dancer of the cafe, presented himself and invited Lillette to dance with him.

GOVERNMENT HAS CONTROL OF LINE

Uncle Sam Able to Care for Companies to Carry Out Shipping Agreement

WASHINGTON, March 14.—There will be no difficulty in binding the Panama Railroad company and the California Atlantic steamship companies to carry out the shipping agreement proposed by the government, as the government is in position to deprive them of the right to use the Panama railroad except on its own terms.

In the case of the American-Hawaiian Steamship company, which handles the transcontinental freight business via the Tehuantepec railroad, the government has no means of compelling an observance of the commodity rate agreed upon.

The prompt results from this inexperience in handling the Panama Railroad company, which handles the transcontinental freight business via the Tehuantepec railroad, the government has no means of compelling an observance of the commodity rate agreed upon.

WELL, WHAT'S A FEATHER, ANYWAY

Mrs. Peter F. Dunne's Handsome Plumes Start Customs Controversy.

SAN FRANCISCO, March 14.—Mrs. Peter F. Dunne, wife of the general counsel for the Southern Pacific Company, has been the innocent cause of a controversy in the customs house here, and Customs Collector Frederick S. Stratton and Customs Broker T. H. Griffin of the Southern Pacific law department find that they must decide, and in the next day or two, just what is a feather.

Are feathers articles of merchandise or articles of personal adornment? If the latter they are immune from duty, but if they are considered merchandise Mrs. Dunne's beautiful plumes, which she had properly declared, together with every article in her trunks on the arrival of herself and three children from Europe Saturday, must be brought back, according to the naval office clerk, and held until the duty is paid.

The Dunne possessions, including the feathers, were duly passed by the surveyor, the appraiser of the customs and several other officials. Customs Broker Griffin paid the duty, amounting to several hundred dollars, on behalf of Dunne, and the trunks sent home.

But a naval officer, name withheld, happened to see the feathers and their unusual beauty and value, set him to thinking, and the result of the thinking was the thought that Uncle Sam had been cheated. So the naval officer decided that the feathers were dutiable and notified the surveyor, the appraiser, the adjuster and the collector accordingly.

Griffin is to take the matter up with the collector in an effort to straighten out the tangle, and in the meantime Mrs. Dunne is wearing her pretty feathers, unconscious of the altercation they have occasioned.

RED TAPE DRIVES MAN TO SUICIDE

Portlander Kills Himself When Government Refuses to Cash Money Orders.

PORTLAND, Ore., March 14.—Descent at the house of \$200 caused by inability to cash three-year-old postoffice money orders aggregating \$1000, John Basque shot and killed himself here, Tuesday, during the financial flurry in 1907, brought money orders with him available money. A month or six weeks ago he paid \$500 deposit on the purchase price of a hotel, the balance to be paid in 30 days.

The man then went to the postoffice with money orders to get the refund. He found that because of ignorance of a regulation requiring the renewal of the orders every 12 months, it would take a month to go through all the necessary government red tape to secure his money.

When the month was up on March 8, Basque returned and was told nothing had been heard about the matter. Brooding over the loss of the \$500 and laboring under the belief that he was destined to lose the other \$1000, appeared to have caused his self destruction.

RAT CAUSED TURNING IN OF BURGLAR ALARM

ATLANTIC CITY, N. J., March 14.—A rat caused the summoning of policemen to capture supposed burglars last night in the home of Colonel John A. Manz, at Atlantic and Brighton avenues. After a four-hour visit on the roof, the burglars were valued at several thousands dollars. Colonel Manz installed several watchdogs in his house. He heard the rat last night they sought it, barking wildly. Soon came the ringing of burglar alarm. Women in the house phoned for the police. When the bluecoats, with revolvers drawn, made a search they saw the watchdogs faithful and around a rat hole. It was found that the rat, in an attempt to reach the pantry, had gnawed through the insulation of burglar alarm wires and started the bells ringing.

Manz caught the rat—or at least a rat—in a trap this morning.

EBELL CLUB HOLDS MONTHLY LUNCHEON

The Ebell Club held its March luncheon today at the clubrooms, when Mrs. William Pattison presided and a large number of the club members and their friends listened to an interesting address on "The Increased Value of Ebell's Share in the Oakland Free Library," by City Librarian Charles S. Greene. Ebell Club has taken much interest in the library equipment and furnished the children's room.

BIG STACK PUT ON THE THOMAS

Repairs Progress Rapidly on U. S. Transport at Local Yards.

Repair work on the army transport Thomas, at the Moore & Scott yards, is progressing rapidly and the big smoke stack, weighing 23 tons and standing 35 feet high with a diameter of 11 feet, is now installed. It was placed in position Sunday when the vessel was free of the small army working upon her that the possibility of fatalities in case of accident might be eliminated.

The keel blocks for the gold dredgers, being built by Moore & Scott, are laid and the putting together of the different parts will commence next week.

The liner, City of Panama, plying between San Francisco and Panama, is at the United Engineering Works getting a thorough overhauling. The work is being rushed and she will probably leave the ways tomorrow.

HAD HARD TRIP.

The lumber schooner Thomas L. Ward, Captain Peterson, docked at the Overland Company's wharf yesterday with 700,000 feet of lumber from the Columbia river. The little vessel fought a tremendous head wind all the way down, high seas continually washed her decks. Despite the elements she was only ninety hours out, the usual time being sixty.

The Togo is at the Webster street wharf with a load of gravel for the Peterson Company. The schooner Defender was taken off the mud near the Moore & Scott yards yesterday and will go north from San Francisco after lumber. She is the last of the Hind-Rolph fleet to be again placed in commission. The St. Helena, unloaded four cars of carbide at Adams' wharf yesterday with the conveyance operated by the Oakland Dock and Warehouse Company. The carbide came from New York via the American Hawaiian steamship line. The Gerard C. Tobey was also at Adams' wharf yesterday taking freight for San Francisco.

LONG WHARF ACTIVITIES.

The Melville Dollar, Captain Fosen, loaded twelve cars of cement for San Pedro yesterday at Long Wharf. The Sea Foam, Captain Richardson and the Daisy, Captain Smith, were at Long Wharf yesterday. The former vessel had 30,000 feet of lumber from Mendocino, the latter 100,000 feet from the Columbia river.

The Manuka will make the next run to Zeeland instead of the Ayraui, of the Union Line, from San Francisco, the latter vessel being under repairs with Moore & Scott.

SHOULD WELCOME ANTIOCH RAILWAY

John P. Irish Declares Oakland Should be Generous in Franchise Offers.

Editor TRIBUNE: One of the most important enterprises not projected in the Oakland and Antioch electric road. It opens up a very fertile and desirable region to the commerce of this city, and when in operation will be the means of settling that region with a dense and prosperous population. The burning question put now is, will we let that road come into Oakland or will we keep it out?

The interests of this city require the most liberal treatment of this new line. We have not heretofore largely participated in the benefits of these inter-urban electric roads. The interior cities lead us in that respect. Travel goes by at Stockton the line runs in front of the splendid new Hotel Stockton.

The Oakland and Antioch line should come into the center of Oakland. It should as nearly as possible approach our new hotel. It should put passengers down in touch with our stores and business centers. It should have a large, friendly and generous hand extended to every franchise and by street frontage as to cause it to ignore all other terminal propositions and take ours because it is the best. Very truly,

JOHN P. IRISH.

NEWBRO'S HERPICIDE

Fools the Calendar.

Don't look older than you are. It is just as easy to look younger. While lack of hair or poor hair is not always an indication of age, it is frequently accepted as such.

A person well advanced in years, possessing a good head of hair, is always spoken of as "well preserved."

Everyone can retain beautiful, luxuriant hair if they make the effort. In almost every instance poor hair or the loss of hair may be traced to the activity of the dandruff germ. Newbro's Herpicide kills this germ and puts the scalp in a perfectly healthy condition. With the destruction of the dandruff germ the hair no longer drops out. The itching of the scalp stops almost at once.

Newbro's Herpicide is the original remedy for which there are many substitutes, preparations claimed to be "just as good." You don't have to accept a substitute. Insist upon having genuine Herpicide.

For sale by all druggists. Applications obtained at good barber shops. One dollar size bottles are always guaranteed. Send 10c in postage to The Herpicide Co., Dept. R., Detroit, Mich., for sample and book.

Furnish a HOME now and pay for it while you are using it. Pay a little each month as you can spare the money from your salary. You will find Oakland-Breuner's the most reasonable in the Bay District. Come in and talk it over. We will trust you privately.

After today our store will open at 8:30 and close at 5:30. On Saturday evenings we will close at 9 p. m.

REMARKABLE CASE OF SUSPENDED ANIMATION

SOUTH NORWALK, Conn., March 14.—His physicians pronounced William Shirdivene dead seven days ago and arrangements for his funeral were begun. He still lives, although the same physicians declare he has not drawn nor exhaled a breath in all the seven days; there has been no respiration in that time.

The doctors say it is an astounding case of suspended animation. When they irritate a nerve center or a great nerve in Mr. Shirdivene's body with a needle some of the muscles supplied by the nerve respond to the irritation. So the muscles are alive.

Besides, the deteriorative changes that

take place soon after death are lacking. Shirdivene is in the same physical condition as before his "demise." But he answers to none of the severest tests to determine whether or not a man lives except to nerve irritation.

Mr. Shirdivene, whose home is on Ely avenue, is well known here.

A pain in the side or back that catches you when you straighten up calls for a rubbing application of BALLARD'S SNOW LINIMENT. It relaxes the contracted muscles and permits ordinary bodily motion without suffering or inconvenience. Price 25c, 50c and \$1.00 per bottle. Sold by Wishart's drug store, 10th and Washington Sts.
